Capelotti,2013-10 It was the original Survivor series only without the omnipresent cameras paramedics and faux tribal rituals Between the spring of 1947 and the summer of the year 2006 more than forty expeditions sought to drift across the oceans of the world on rafts These audacious

voyages began with the legendary Kon Tiki expedition under the leadership of the renowned Norwegian explorer Thor Heyerdahl. The Kon Tiki raft drifted more than four thousand miles from Peru to Polynesia and remained afloat months after experts predicted it would sink to the bottom of the Pacific. Heyerdahl's radical thesis of a prehistoric world where ancient mariners drifted between continents on ocean currents electrified the postwar world. His *Kon Tiki Across the Pacific by Raft* sold twenty million copies in sixty-five languages. In the wake of Kon Tiki documents all of the transoceanic raft expeditions that were organized and carried out in the half century after Kon Tiki. Spanning more than fifty years and recounting more than forty expeditions, *In the Wake of Kon Tiki* is a riveting chronicle of human daring, endurance, and folly. **Kon-Tiki**, 2012

In 1947 the world is gripped with excitement as the young Norwegian adventurer Thor Heyerdahl embarks on an astonishing expedition, a journey of 4,300 nautical miles across the Pacific Ocean on the Kon Tiki raft. From his days living in the Marquesas with his wife Liv, Thor suspected that the South Sea Islands had been settled by ancient South Americans from thousands of miles to the east. Despite his inability to swim and fear of water, Thor decides to prove his theory by sailing the legendary voyage himself. After replicating the design of an ancient raft in balsa wood, Thor and five fellow adventurers set sail from Peru. Their only modern equipment is a radio, and they take a parrot along for company. A natural leader, Thor uses the stars and the ocean's current to navigate the raft. After three dangerous months on the open sea, encountering raging storms, sharks, and all the dangers the Ocean can muster, the exhausted crew sights Polynesia and makes a triumphant landing. Having sacrificed everything for his mission, even his marriage, the success of the Kon Tiki expedition proves bittersweet for Thor.

From Raft to Raft Bengt Danielsson, 2013-06-04

Not since the fantastic story of the Kon Tiki expedition has there appeared such an exciting saga of a primitive raft expedition across the Pacific for scientific investigation. *From Raft to Raft* tells the incredible suspenseful drama of the dangerous voyage led by Eric de Bisschop from Tahiti to Chile and back to Polynesia, a foray twice as long as that undertaken by Kon Tiki and one that encountered infinitely greater difficulties and dangers. Like Heyerdahl, de Bisschop undertook his voyage to prove an ethnological theory, but a theory completely contrary to that of his Norwegian forerunner. Heyerdahl believed that voyagers from South America had visited Polynesia in prehistoric times; de Bisschop was equally certain that Tahitian sea rovers had traveled as far as Chile and Peru. After suffering unbelievable hardships during the first half of the voyage, two members of the Tahiti Nui crew abandoned the project, but de Bisschop and Alain Brun, who narrated the story to Bengt Danielsson, continued on their journey, spending thirteen months aboard the most primitive rafts. But despite the inadequacy of their crafts, all of which had a frightening tendency to break up, coupled with the dangers of attacking sharks, mutiny by one of the crew, raging storms, and near starvation, the Tahiti Nui voyage was completed in record time, but not before a series of dramatic events occurred that were to culminate in tragic death.
