

Mercury 8 Hp

Louis Vessot King

Mercury 8 Hp:

Ford Flathead Engines Michael Herman, Tony Thacker, 2016-07-15 Although not the first V 8 engine ever produced Henry Ford's side valve V 8 launched in 1932 certainly qualified as the first mass produced V 8 sold to the public. Because of Henry Ford's stubbornness the first versions were less than ideal. The technology was in its infancy and cost-cutting measures limited the output and reliability of the early models. Over time however the Flathead became the go-to powerplant for a whole generation of new hobbyists who were called hot rodders. The engine maintained its position in the hobby well into the 1950s even when more modern overhead valve designs started coming out of Detroit. It's hard to overstate the impact that this simple little engine had on a whole generation of enthusiasts. Even today people choose a flathead for period correct builds over far more powerful options. The style and sound of a modified flathead is an iconic part of American history. In Ford Flathead Engines How to Rebuild many have been sitting for a very long time and the engine design is prone to cracking. Running changes are also an important consideration when selecting a core and include cooling system, ignition and transmission mount. After you have selected a core Thacker and Herman take you through the entire process of a rebuild including teardown, parts inspection, machine shop processes, replacement part selection, re-assembly, start-up and break-in. Also covered is a unique performance build completed at the H H shop for legendary race car team manager and all-around enthusiast Ray Evernham. It all adds up to more than 500 color photos and insider tips on building what could be called the most iconic engine ever built, the Ford flathead V 8. Ford Police Cars, 1932-1997 Edwin J. Sanow, This book offers tremendous detail about the Ford models used by law enforcement agencies between 1932 and today. The book highlights special police equipment such as heavy-duty suspensions and transmissions, high performance engines and special interiors.
