of the technical working group members who have provided valuable insight into these important issues We expect that each jurisdiction will be able to use these recommendations to spark debate and ensure that its practices and procedures are best suited to its unique environment Law enforcement personnel can benefit from training based on the procedures recommended in the Guide To assist law enforcement trainers with creating and instructing courses on eyewitness evidence including the topics of interviewing witnesses and conducting lineups TWGEYEE has developed the materials included herein This manual is written for law enforcement trainers to accompany Eyewitness Evidence A Guide for Law Enforcement hereafter the Guide It is presumed that the law enforcement students in the course will each have a copy of or access to the Guide This manual provides much of the context for understanding why the procedures described in the Guide for the collection and preservation of eyewitness evidence may enhance the reliability of this evidence Although the procedures described in the Guide are relatively easy to follow it is useful for trainers to understand why procedures are important and to communicate these reasons to the students

NACDL Resource Manual National Association of Criminal Defense Lawyers,2020     Eyewitness Identification Paul B. Carroll,Sgt Paul B Carroll Ret,Ken Patenaude,Capt Kenneth Patenaude Ret,2011-12-09 The importance of eyewitness identification cannot be overstated It has been the primary piece of evidence used in trials across the country for over a century There is nothing more compelling to a jury than a victim or a witness pointing to the defendant and telling all those present that the individual sitting at the defense table committed the crime However since the advent of DNA technology in the late 1980 s there have been 280 exonerations to date of persons previously convicted in criminal court These persons have been adjudged as actually innocent What is important to us in the criminal justice community is the fact that we understand that our past practices may have led to wrongful convictions and that there are improved methods to employ to prevent further injustices A dual injustice occurs when we convict an innocent person while the guilt person is still free to commit more crimes against your community Scrutiny must occur across the spectrum and on all levels of criminal investigations so that further injustices may be reduced or avoided If your law enforcement agency has not added an eyewitness identification policy and training program now is the time to make those changes We offer what we believe to be improved methods that go beyond what is outlined in the Department of Justice Guide These improved methods come from many years of research recommendations and what current practitioners of those methods have told us today work very well We strongly believe that the identification method that should be employed today is to conduct a sequential double blind line up and or photo array This method of identifying perpetrators is the best practice for law enforcement to reduce the chances of further misidentifications and wrongful convictions This publication based on the authors successful training programs presents a complete overview of the use of Eyewitness Evidence in criminal investigations the problems that face law enforcement and offer suggestions to over come those problems     *The Handbook of Eyewitness Psychology* Rod C.
