Landscape of a Challenged Life Enriqueta Cartagena Mayuga, Enriqueta Cartagena Mayuga M D, 2012-02

Challenging the Representation of Ethnically Divided Cities Giulia Carabelli, Aleksandra Djurasovic, Renata Summa, 2021-05-24 The book Challenging the Representation of Ethnically Divided Cities Perspectives from Mostar questions the existing overrepresentation of Mostar as an ethnically divided city While acknowledging the existence of internal borders the chapters in this book assert that they are not solid nor fixed and by exploring how they become material or immaterial the book offers a deeper understanding of the city's complex dynamics Accordingly the chapters in this book are attentive to how ethnic divides materialise or lose importance because of socio political contingencies Events groups and spaces that promote reconciliation from the bottom up are examined not necessarily to assess their success and failures but rather to look at how they create networks gain trust and form platforms that generate novel understandings of ethnic loyalties and party memberships Further and drawing both on the empirical data and theoretical reflections this volume contributes to broader debates about divided cities by suggesting the need to engage with these cities in their complexities rather than reducing them to their ethno national divisions The book engages with socio political and economic complexities in order to shed light on how ethnic conflicts and resulting spatial partitioning are often just the surface of much more complex dynamics that are far less easy to disentangle and represent The chapters in this book were originally published in Space and Polity *Architectural Research Addressing Societal Challenges* Manuel Jorge Rodrigues Couceiro da Costa, Filipa Roseta, Joana Pestana Lages, Susana Couceiro da Costa, 2019-08-08 The escalating interdependency of nations drives global geopolitics to shift ever more quickly Societies seem unable to control any change that affects their cities whether positively or negatively Challenges are global but solutions need to be implemented locally How can architectural research contribute

to the future of our changing society How has it contributed in the past The theme of the 10th EAAE ARCC International Conference Architectural Research Addressing Societal Challenges was set to address these questions This book Architectural Research Addressing Societal Challenges includes reviewed papers presented in June 2016 at the 10th EAAE ARCC International Conference which was held at the facilities of the Faculty of Architecture of the University of Lisbon The papers have been further divided into the following five sub themes a Changing Society In Transit Global Migration Renaturalization of the City Emerging Fields of Architectural Practice and Research on Architectural Education The EAAE ARCC International Conference held under the aegis of the EAAE and of the ARCC is a conference organized every other year in collaboration with one of the member schools universities of those associations alternatively in North America or in Europe
