L'anne Stratégique 2016 Analyse Internationale:

La géopolitique Abdelaziz Djerad, 2022-10-12 Qu'est-ce que la géopolitique ? Comment se situe-t-elle par rapport aux sciences humaines ? Où situer ses origines et comment a-t-elle évolué en tant que discipline ? Qui sont les théoriciens de la géopolitique ? Quels sont les impacts des théories géopolitiques sur les conflits du XX^e siècle ? Quels sont les enjeux géopolitiques en ce début du XXI^e siècle ? L'auteur tente de répondre à ces questionnements et vient combler un retard dans un domaine souvent ignoré ou négligé dans nos universités ainsi que par ceux qui se positionnent aux différentes tapes du processus de décision dans les domaines de la politique étrangère et sécuritaire en Algérie. Cet ouvrage se veut pédagogique et s'adresse au large public : étudiants, chercheurs, diplomates, militaires, professionnels de la communication, chefs d'entreprises ou toute personne qui cherche à comprendre les mandres de la vie internationale.

PROPOS DE L'AUTEUR Né en 1954 à Khenchela, diplômé en droit, Abdelaziz Djerad est diplômé de la faculté des sciences politiques d'Alger et docteur d'État de l'Université de Paris X Nanterre. Professeur de Relations Internationales à la Faculté des Sciences Politiques et Sociales Nationale d'Administration, il a publié plusieurs ouvrages et de nombreux articles.

The State in North Africa Luis Martinez, 2020-02-15 Ever since independence, revolts and riots in North Africa have structured relations between society and the state. While the state has always managed to restore order, the unexpected outbreak of the Arab Spring revolts has presented a real challenge to state stability. Taking a long-term historical perspective, this book analyses how public authorities have implemented policies to manage the Maghreb's restive societies, viewed at first as retrograde and then as radicalised. National cohesion has been a major concern for post-colonial leaders who aim to build strong states capable of controlling the population. Historically, North African nations found colonial oppression to be the very bond that united them, but what continues to hold these communities and nation-states together after independence? If public interest is not at the heart of the state's actions, how can national loyalties be maintained? Luis Martinez analyses how states approach these questions, showing that the fight against jihadist groups both helps to reconstruct essential ties of state belonging and also promotes the development of a border control policy. He highlights the challenges posed by fragile political communities and weak state instruments and the response of leaders striving to build peaceful pluralistic nations in North Africa.

Problèmes économiques, 2015 *The Age of Violence* Alain Bertho, 2018-10-02 Only martyrs know neither pity nor fear. Believe me, the day when the martyrs are victorious will be the day of universal conflagration. Jacques Lacan made this gloomy prophesy back in 1959, but doesn't it also apply to our own time? Faced with a rise in attacks around the world, can we really just blame the radicalization of Islam? What hope is there for the alienated youth as the wars that have ravaged the Middle East spill out across the globe? For Alain Bertho, the mounting chaos we see today is above all driven by the weakening of states' legitimacy under the pressure of globalization. Add to this the hypocrisy of the elites who beat the drum of security measures even as they sow the seeds of violence around the world. This disorder is the swamp of despair which can only produce fresh atrocities. Today's youth are the lost children of

neoliberal globalization the inheritors of the political and human chaos it produces When they find it easier to imagine the end of the world than the end of capitalism their revolt tends to take the paths of martyrdom and despair The closing of the revolutionary hypothesis allows only fury The answer Bertho argues is a new radicalism able to inspire a collective hope in the future *Urban Development in the Margins of a World Heritage Site* Adèle Esposito, 2025-10-01 This volume addresses the relationship between the UNESCO World Heritage Site of Angkor Cambodia and the nearby town of Siem Reap While previous work on heritage sites has mainly focused on protected areas this book shifts the attention to the margins where detrimental tourism driven urban development may take place By delimiting a protected site a non heritage space is created in which spatial fragmentation disruptive development processes and unjust power plays can occur In post war Cambodia liberalization and collective aspirations for progress have provided a strong incentive for modernization Controversial interests compete in the arena of urban development and real estate development prevails over planned growth At the same time Siem Reap's marginal position allows for some freedom in architectural and urban design In the shadow of institutional control this architectural space expresses alternative visions of the Khmer heritage and connects them with images of urban modernity *Allies That Count* Olivier Schmitt, 2018-03-01 What qualities make an ally useful in coalition warfare and when is an ally more trouble than it's worth *Allies That Count* analyzes the utility of junior partners in coalition warfare and reaches surprising conclusions In this volume Olivier Schmitt presents detailed case study analysis of several US allies in the Gulf War the Kosovo campaign the Iraq War and the war in Afghanistan He also includes a broader comparative analysis of 204 junior partners in various interventions since the end of the Cold War This analysis bridges a gap in previous studies about coalition warfare while also contributing to policy debates about a recurring defense dilemma Previous works about coalition warfare have focused on explaining how coalitions are formed but little attention has been given to the issue of their effectiveness Simultaneously policy debates have framed the issue of junior partners in multinational military operations in terms of a trade off between the legitimacy that is allegedly gained from a large number of coalition states vs the decrease in military effectiveness associated with the inherent difficulties of coalition warfare Schmitt determines which political and military variables are more likely to create utility and he challenges the conventional wisdom about the supposed benefit of having as many states as possible in a coalition *Allies That Count* will be of interest to students and scholars of security studies and international relations as well as military practitioners and policymakers **L'Année sociologique**, 2018

L'action humanitaire en zones rebelles en Côte d'Ivoire de 2002 à 2011 Jakaria Koné, 2024-10-03

La crise militaro politique survenue le 19 septembre 2002 en Côte d'Ivoire a entraîné une partition du pays entre armées loyalistes au Sud et insurgés au Nord. Le conflit s'est inscrit dans la durée cela a mis mal les fondements politiques économiques et sociaux de la zone sous contrôle de la rébellion avec de graves conséquences humanitaires pour les populations de la zone Centre Nord et Ouest CNO avec la ville de Bouaké et en particulier dans le quartier général des mouvements rebelles. En l'absence de l'administration et des personnels des services sociaux de base les agences humanitaires allaient se substituer aux autorités publiques en tant que prestataires de services sociaux. Aux côtés des organisations humanitaires aguerries l'action humanitaire des organisations nationales et religieuses implantées à l'échelle nationale avec une bonne connaissance du terrain joueront un rôle primordial dans l'activité humanitaire dans la zone CNO pour soulager et sauver des vies humaines. Avec des ressources humaines et financières limitées ces organisations nationales et religieuses à l'instar du REMCI assureront une assistance humanitaire de base dans la zone dans les domaines de la sécurité alimentaire la santé l'éducation la protection l'eau et l'assainissement
