Conference,1967 *Lapps and Norsemen in olden times*,1967 **Lapps and Norsemen in Olden Times** Instituttet for Sammenlignende Kulturforskning (Oslo),1967 Report of the Lapps and Norsemen in Olden Times Instituttet for sammenlignende kulturforskning,1967 Lapps and Norsemen in Olden Times. (Six Papers Read at a Conference Arranged in Oslo, November 19-21, 1964, by the Institute for Comparative Research in Human Culture.) [By Ingeborg Hoff and Others. With Maps.]. Instituttet for sammenlignende kulturforskning,Ingeborg Hoff,1967 A Brief History of the Vikings Jonathan Clements,2013-02-07 From the Fury of the Northmen deliver us O Lord Between the eighth and eleventh centuries the Vikings surged from their Scandinavian homeland to trade raid and invade along the coasts of Europe Their influence and expeditions extended from Newfoundland to Baghdad their battles were as far flung as Africa and the Arctic But were they great seafarers or desperate outcasts noble heathens or oafish pirates the last pagans or the first of the modern Europeans This concise study puts medieval chronicles Norse sagas and Muslim accounts alongside more recent research into ritual magic genetic profiling and climatology It includes biographical sketches of some of the most famous Vikings from Erik Bloodaxe to Saint Olaf and King Canute to Leif the Lucky It explains why the Danish king Harald Bluetooth lent his name to a twenty first century wireless technology which future saint laughed as she buried foreign ambassadors alive why so many Icelandic settlers had Irish names and how the last Viking colony was destroyed by English raiders Extending beyond the traditional Viking age of most books A Brief History of the Vikings places sudden Scandinavian population movement in a wider historical context It presents a balanced appraisal of these infamous sea kings explaining both their swift expansion and its supposed halt Supposed because ultimately the Vikings didn't disappear they turned into us **Decolonising Medieval Fennoscandia** Solveig Marie Wang,2023-03-20 The interdisciplinary study investigates the relationship between Norse and Saami peoples in the medieval period and focuses on the multifaceted portrayal of Saami peoples in medieval texts The investigative analysis is anchored in postcolonial methodologies and argues for the inherent need to decolonise the medieval source material as well as recent historiography This is achieved by presenting the historiographic and political background of research into Norse Saami relations before introducing an overview of textual sources discussing Saami peoples from the classical period to the late 1400s an analysis of the textual motifs associated with the Saami in medieval literature their relevance and prevalence geo political affairs trading relations personal relations and Saami presence in the south By using decolonising tools to read Norse Saami relations in medieval texts influenced by archaeological material and postcolonial frameworks the study challenges lingering colonial assumptions about the role of the Saami in Norse society The current research episteme is re adjusted to offer alternative readings of Saami characters and emphasis is put on agency fluidity and the dynamic realities of

the Saami medieval pasts *Circumpolar Problems* Gösta Berg, 2013-10-22 *Circumpolar Problems* Habitat Economy and Social Relations in the Arctic contains papers presented at the Symposium on Circumpolar Problems organized by the Nordic Council for Anthropological Research and held on September 14-21 1969 in Luleå Sweden and Tromsø Norway Organized into 22 chapters this book begins with some comparisons between Greenlanders and Lapps regarding their relationship to the inclusive society Subsequent chapters discuss the urbanization industrialization and changes in the family in Greenland during the reform period since 1950 conservation and destruction of traditional culture and socio-economical transformation and modern ethnical development of the inhabitants of the Siberian polar zones of the north-eastern regions Other chapters explain the migrations from nomad to urban districts in Northern Sweden division of the Lapps into tradition areas variations of settlement pattern and hunting conditions in three districts of Greenland cultural concept in the Arctic Stone Age and transition from hunting to nomadic economy in Finnmark Lapps and Scandinavians Inger Zachrisson, 1976 Finds from period after birth of Christ included in material from lake regulations surveys **Burial Customs of the Skolt Lapps** Nils Storå, 1971 **Investigation of the Origin of the Old Norse or Icelandic Language** Rasmus Rask, 2013-04-15 This edition constitutes a reprint of Niels Ege's English translation of Rasmus Rask's prize essay of 1818 which appeared as volume XXVI in the *Travaux du Cercle Linguistique de Copenhague* in 1993 The prize essay was published in Danish in 1818 In contrast to other works by Rask notably his introduction to the study of Icelandic it was never reissued until Louis Hjelmslev published a corrected version in Danish as part of his edition of Rask's selected works While Rask lived a substantial part of the book was translated into German The present work is however the only translation of the work into English and indeed into any other language It is to be hoped that the field of the history of linguistics will hereby receive a new impetus to scrutinize the early beginnings of Indo-European scholarship But just as importantly the translation of this work of genius reveals that even if details in the substantial treatment of the various branches of language have now been superseded the theoretical parts of the book are still worth reading by all linguists for their own sake **The Division of the Lapps Into Cultural Areas** Juha Pentikäinen, 1972 **Agrarian Settlements and Hunting Grounds** Klas-Göran Selinge, 1979 **Changes in Sami (Lapp) Conceptions of Male and Female as a Key to Cultural Transformations in Sami History** Sharon Stephens, 1983 This paper explores the changing concepts of male and female and changes in the structural position of gender categories themselves in the three major periods of Sami history a semi-nomadic traditional period based on hunting and fishing a pastoral period involving extensive migrations with large herds of domesticated reindeer and a modern period of considerable Sami involvement in a Western market economy A focus on gender allows the development of a more comprehensive theory of Sami history as a series of cultural systems of very different kinds Each system is characterized by its own primary relations and categories organizing not only gender relations but also intimately related construction of the self and social whole ecological patterns mode of historical reproduction and the overall relation

of men and women to the symbolic order Broader implications of this Sami analysis are also suggested for theoretical issues in the study of gender and culture and for practical assessments of the situations and needs of women and men in non Western societies Manual of Mythology Greek and Roman, Norse, and Old German, Hindoo and Egyptian Mythology by Alexander S.
