[Ancient Scandinavia](#) T. Douglas Price, 2015-06-12 Ancient Scandinavia provides a comprehensive overview of the archaeological history of Denmark Norway and Sweden

[Colonial Entanglements and the Medieval Nordic World](#) Cordelia Heß, Solveig Marie Wang, Erik Wolf, 2024-12-16 The book investigates the multifaceted entanglements between the many pasts and presents of the Nordic medieval period and colonialism The edited volume contributes to the untangling of questions concerning how present recent and past structures of colonialism affect historiography on the medieval Nordic past Consisting of thematically diverse chapters the book brings together a range of approaches related to medieval colonialism in a Nordic context touching both on medieval and medievalist factors The editors and contributors understand their project as part of the growing conversation about colonialism and its reverberations in academia and as a contribution to decolonization efforts The volume will offer an interdisciplinary approach to oft neglected aspects of the medieval world through an incorporation of more inclusive methodologies and re readings of both medieval texts and previous scholarship

The Invention of Scarcity Deborah Valenze, 2023-06-27 A radical new reading of eighteenth century British theorist Thomas Robert Malthus which recovers diverse ideas about subsistence production and environments later eclipsed by classical economics With the publication of *Essay on the Principle of Population* and its projection of food shortages in the face of ballooning populations British theorist Thomas Robert Malthus secured a leading role in modern political and economic thought In this startling new interpretation Deborah Valenze reveals how canonical readings of Malthus fail to acknowledge his narrow understanding of what constitutes food production Valenze returns to the eighteenth century contexts that generated his arguments showing how Malthus mobilized a redemptive narrative of British historical development and dismissed the varied ways that people adapted to the challenges of subsistence needs She uses history anthropology food studies and animal studies to redirect our attention to the margins of Malthus's essay where activities such as hunting gathering herding and gardening were rendered extraneous She demonstrates how Malthus's omissions and his subsequent canonization provided a rationale for colonial imposition of British

agricultural models regardless of environmental diversity By broadening our conception of human livelihoods Valenze suggests pathways to resistance against the hegemony of Malthusian political economy The Invention of Scarcity invites us to imagine a world where monoculture is in retreat and the margins are recentered as spaces of experimentation nimbleness and human flourishing

Hunters in Transition Lars Ivar Hansen, Bjørnar Olsen, 2013-10-31 Hunters in Transition provides a new outline of the early history of the Sami the indigenous population of northernmost Europe Discussing crucial issues such as the formation of Sami ethnicity interaction with chieftain and state societies and the transition from hunting to reindeer herding the book departs from the common trope whereby native encounters with other cultures state societies and modernity are depicted mainly in negative terms Far from always victimizing the other the interaction with outside societies played a crucial role in generating and maintaining a number of features considered integral to Sami culture At the same time the authors also emphasize internal processes and dynamics and show how these have greatly contributed to the diverse historical trajectories with which this book is concerned Listed by Choice magazine as one of the Outstanding Academic Titles of 2014
