

### *Slicing*

- Start with the knife at a sharp angle and with the tip of the knife on the cutting board.
- Move the knife forward and down to slice through the product.
- Finish the cut with the knife against the cutting board. For the second slice, raise the knife and pull backward. The tip of the knife should always be on the cutting board.

### *Dicing*

- Cut the product into even slices of the desired thickness.
- Stack the slices and slice across the stack in even pieces.
- Stack the slices again and slice again.
- Chopping with a Chef's Knife
- Start by holding the tip of the knife against the cutting board with the guiding hand.
- Rock the knife rapidly up and down at the same time, while gradually moving the knife sideways across the product on the cutting board. The cuts should pass through all parts of the product.
- After several cuts, redistribute the product and start again.
- Continue until all the product is chopped to the desired fineness.

existing practices based on Myanmar's GAP to ASEAN's GAP standards. The upgraded GAP version focuses on food safety, quality, worker health, safety, and environmental management. Implementing GAP enhances food safety and quality while promoting ecological sustainability in rice-legumes-based production systems. Identified gaps in knowledge, access, and efficiency of inputs and services for green gram were addressed through a comprehensive situational analysis involving project collaboration with various stakeholders, including market actors. Validation and contextualization were achieved through data research, stakeholder discussions, and insights from relevant stakeholders. The dissemination of GAP involves capacity building of the farmers and relevant stakeholders, pulse growers' associations, public-private partners, and value chain actors. The framework focuses on pre- and post-harvest practices for safe, quality green gram production tailored to small and medium farmers. Key messages promote easy agronomic management practices. GAP rollout includes farmer organization, support, technical assistance, market linkages, and training, supplemented by on-farm demonstrations, farmer field schools, and information and communications technology (ICT) tools. User-friendly integrated pest management (IPM) handbooks and farmer field school (FFS) curriculum complement the framework, aiding farmers' capacity building and supporting existing GAP initiatives.
