Dance, Drugs and Escape Stan Beeler, 2007-06-05

In the late 1980s the rave phenomenon swept the youth culture of the United Kingdom incorporating the generations two newest social stimulants modern electronic dance music and a notorious designer drug known as Ecstasy. Although the movement began in rebellion against mainstream culture its underground dynamism soon attracted the interest of novelists screenwriters and filmmakers who attempted to reflect the phenomenon in their works. Through artistic and commercial popularization the once obscure subculture was transformed into a pop culture behemoth with powerful links to the entertainment industry. This study deals with the transformative effects of film television and literature on club culture. Chapters furthermore reflect club culture's own effect on crime ethnicity sexuality and drug use. As the study traces artistic depictions of club culture's development each chapter focuses on individual books films and television shows that reflect the transformation of the club culture into what it is today.

Dialectic of Pop Agnes Gayraud, 2020-01-28

A philosophical exploration of pop music that reveals a rich self-reflexive art form with unsuspected depths. In the first major philosophical treatise on the subject Agnes Gayraud explores all the paradoxes of pop: its inauthentic authenticity its mass production of emotion and personal resonance its repetitive novelty its precision engineering of seduction and calls for pop in its broadest sense encompassing all genres of popular recorded music to be recognized as a modern technologically mediated art form to rank alongside cinema and photography. In a thoroughgoing engagement with Adorno's fierce critique of standardized light popular music *Dialectic of Pop* tracks the transformations of the pop form and its audience over the course of the twentieth century from Hillbilly to Beyoncé from Lead Belly to Drake. Inseparable from the materiality of its technical media indifferent and intractable to the perspectives of high culture pop subverts notions of authenticity and inauthenticity original and copy aura and commodity medium and message. Gayraud demonstrates that far from being the artless and trivial mass-produced pabulum denigrated by Adorno pop is a rich self-reflexive artform that recognises its own contradictions incorporates its own productive negativity and often flourishes by thinking against itself. *Dialectic of Pop* sings the praises of pop as a constitutively impure form resulting from the encounter between industrial production and the human predilection for song and diagnoses the prospects for twenty-first century pop as it continues to adapt to ever-changing technological mediations.
