A Historical Introduction to the Philosophy of Mind Peter A. Morton, 1996-12-23 A Historical Introduction to the Philosophy of Mind is designed both to provide a selection of core readings on the subject and to make those readings accessible by providing commentaries to guide the reader through initially intimidating material Each commentary explains technical concepts and provides background on obscure arguments as they arise setting them in the historical and intellectual milieu from which they emerged The readings concentrate on providing the student with a solid grounding in the theories of representative figures of the major philosophical movements from Plato and Aristotle to important recent figures such as Fodor and Dennett A glossary of key terms is also included

Philosophy in the West Eugene F. Bales, 2008-10-07 PHILOSOPHY IN THE WEST MEN WOMEN RELIGION SCIENCE This single volume history of philosophy in the West is distinguished by its wide coverage of figures by its inclusion of well over thirty women and by its substantive discussion of the historical background of each epoch Each chapter begins with an overview of the period and concludes with a lengthy bibliography of both primary and secondary texts There is a useful glossary of terms at the end of the book Philosophy in the West is intended as a general guide to those taking courses in the history of philosophy humanities and related areas It will also be of interest to those in the fields of theology philosophy feminism and historical studies
