Living The Secular Life New Answers To Old Questions:

Living the Secular Life Phil Zuckerman, 2015-10-27 Over the last 25 years no religion has become the fastest growing religion in the Western World Revealing the inspiring beliefs that empower secular culture alongside real stories of nonreligious men and women based on extensive in depth interviews from across the U S *Living the Secular Life* will be indispensable for millions of secular people A manifesto for a booming social movement and a revelatory survey of an overlooked community this book offers essential and long awaited information for anyone building a life based on his or her own principles

The New Nihilism Costantino Esposito, 2024-11-01 In this highly engaging book Costantino Esposito argues that nihilism is not merely the loss of the classic values of the Western tradition rather it presents a critical opportunity to ask pertinent timely questions about the meaning of self and the world Nihilism is a problem that has troubled the culture philosophy and worldview of people and societies for more than a century a problem that seemed thanks to the advance of cultural relativism to have become an obvious and globally shared condition However in recent years the conversation around nihilism has begun to change The questions that nihilism once declared impossible to answer questions about the ultimate meaning of self and reality the truth of the person and history our desire to understand ourselves in relation to the infinite are reemerging in today s culture and proving to be profound reasonable and of vital importance In its classical form nihilism is the loss of values and ideals but its modern iteration manifests as an irreducible need more basic but far more challenging Esposito suggests that rather than being an obstacle nihilism can become an opportunity to search for true meaning for our experiences in the world With philosophical rigor he intercepts and narrates this new phenomenon focusing on social trends poetic voices philosophical and scientific visions ethical problems and aesthetic experiences The New Nihilism unravels and makes sense of the real stakes of the existential crisis of our time

The ^AOxford Handbook of Humanism Anthony B. Pinn, 2021-07-27 As a system of thought

that values human needs and experiences over supernatural concerns humanism has gained greater attention amid the rapidly shifting demographics of religious communities This outlook has taken on global dimensions with activists artists and thinkers forming a humanistic response not only to religion but to the pressing social and political issues of the 21st century The Oxford Handbook of Humanism aims to explore the subject by analyzing its history its philosophical development and its influence on culture It will also discuss humanism as a global phenomenon an approach that has often been neglected in more Western focused works

Atheism and Love in the Modern Era Colby Dickinson, 2025-04-17 Discussing the decline of faith and the rise of love in the modern era Colby Dickinson proposes a critique of religious belief which addresses how a secular world can continue to mine religious traditions for their conceptual and emotional riches Atheism and Love in the Modern Era argues that theism and atheism taken together can peel back the layers of abstraction alienation and disillusionment that always accompany our humanity in order to help us really see how it is to exist in this world To illuminate this vision Dickinson takes up the notion of love as a cultivation and practice of indifference as a letting go of one's identity a crucial concept that unites both religion and atheism through a concerted effort to detach from them both The book is organized into four sections each situating the concept of love in relation to a distinct theme the first outlines modern secularized versions of various religious concepts such as technology in the place of miracles or art in the place of religious revelation The second argues that in a pluralistic world the actual lived realities of various religious communities and persons defy the static categories and classifications grouped under the umbrella of religion The third section discusses and defines non absolute love The fourth section discusses how atheism in its critiques of religion misses the significance of de centring the act of love Dickinson elaborates his reflections through lucid engagement with a variety of thinkers including i ek Agamben Irigaray Derrida Erich Fromm Charles Taylor and Philip Kitcher This is essential reading for those interested in popular debates around theism and atheism as well as those concerned with the ways in which continental and analytic philosophy have addressed the continued significance of religious traditions
