developed and is making progress Significant achievements over the past two decades are evident but many problems remain  
including the poor quality of teaching research and institutional management Under funding is an ongoing obstacle but so  
too is a bureaucratic culture of resistance to change a history of weak governance and an anti reform sentiment deriving  
from a teacher centred and exam driven curriculum Achieving international standards must now be the system s highest  
priority To this end the system must rid itself of conservatism complacency and manipulation by parochial vested interests
