for direct participation in government How might climate change impact Australian democracy in the coming decades How might the rise in early voting impact the character of Australian democracy What opportunities do Australians have for engagement in civic life and what obstacles do they face in exercising them This edited collection brings together specialists in the democratic process to consider such questions alongside many others Moreover the collection is uniquely interdisciplinary insofar as the contributors are drawn from a diverse range of fields law philosophy political science and sociology The chapters each help bring us a broader understanding of civic participation in Australian democracy in order that we might evaluate the status quo and gauge where it might be headed in the future

Climate Change Law, Technology Transfer and Sustainable Development Md Mahatab Uddin, 2021-07-21 This book explores the possibilities and scope of facilitating innovation and transfer of the environmentally sound technologies in the Post Paris climate era The possibilities to be explored by the book will first focus on the roles of the climate finance and technological cooperation mechanisms in innovation and transfer of environmentally sound technologies Secondly the book will focus on role of the flexible mechanism i e indirect financial mechanisms which has been re introduced by the Paris Agreement as voluntary cooperation or sustainable development mechanism in innovation and transfer of environmentally sound technologies Thirdly the book will contain a comparative analysis regarding efficiency of the technology transfer mechanism under global climate regime in comparison with technology transfer mechanism that exists under other multilateral environmental agreements MEAs In addition to the above since the issues of trans boundary technology transfer is also a matter of concern for international trade the book will discuss to what extent the international trade related laws e g intellectual property laws investment related laws governed by the World Trade Organizations WTO can play role in facilitating transfer of the environmentally sound technologies Another important aspect that this book will cover is potential roles which private sectors can play in innovating and transferring environmentally sound technologies under above mentioned instruments of international law In short this book will be based on the argument that if global climate regime and the international trade regime collaborate each other in creating enabling environment and attracting private sector to invest in the field of environmentally sound technologies the global challenges of innovation and transfer of the environmentally sound technologies to the developing and least developed countries can be fulfilled in more efficient manner From conceptual perspectives discussions and analyses of the book will be made in the light of the principles of equity and common but differentiated responsibilities and respective capabilities CBDR RC two main guiding principles of the international laws on climate change This book will be of great interest to scholars of climate change technology transfer intellectual property and sustainable development Besides national and international level policy makers dealing with climate change and sustainable development will be greatly benefitted from this book
