imaginative room to them If one studies the knowledge s he will be aware of cultural differences and therefore treat them with respect The book is composed of two perspectives on cultural knowledge In a first step the book turns to post colonial theory Post colonialism argues how a Western perspective has framed cultural identities and how these representations are flawed by colonial thinking In a second step a Levinasian perspective is taken on cultural knowledge The French philosopher Emmanuel Levinas was deeply concerned with our way of approaching the Other He understood the Other to be incomprehensible to our understanding The Other s otherness cannot be grasped by framing her him into categories He argued that every encounter is of ethical nature and encouraged each individual to show infinite responsibility towards the Other that is not confined by any pre knowledge The book concludes that cultural knowledge has been exposed to significant limitations These limitations are mainly a product of control interests Individuals who acquire cultural knowledge and are not made aware of its limitations face consequences that may compromise their respect for cultural differences Even though cultural knowledge presents itself as foundation for respect it prioritizes understanding for the sake of control As a consequence respectful representations are not given and respect for cultural differences is only supported as long as it does not threaten control Ultimately this book shall present a plea for trainers and teachers of cultural knowledge to become acquainted with the limitations reflect on them and forward this knowledge to their students It shall also encourage researchers of cultural differences and other scholars to reflect and perhaps improve on it
