**Gareth Van Onselen**

## **Matric Exams Limpopo 2014:**

The Report: South Africa 2014 Oxford Business Group, 2014-12-08 Indeed since the end of apartheid in 1994 South Africa has become a major diplomatic player both on the African continent as well as further afield Despite the size of South Africa's economy the country currently faces a number of major economic challenges As of the end of July 2014 the unemployment rate was at 25.5% according to data from Statistics South Africa which was among the highest in the world While the government's long term development plans are generally highly regarded delivery and execution has occasionally been problematic While there are major hurdles that must be cleared given the country's strong institutions and the rapid pace of economic expansion over the past two decades South Africa should be able to look forward to 20 more years of peace and steady sustained economic growth

**Transformation Audit 2011** Jan Hofmeyr, 2012-03-08 The 2011 Transformation Audit presents a collection of articles by South African thought leaders which asks how the country can set goals and achieve them in a hostile global climate that threatens developmental gains that have been painstakingly achieved For nearly two decades South Africans have conducted exhaustive analyses of the country's challenges embarked on bold scenario exercises and more recently produced forward looking strategies aimed at addressing these challenges The most eminent of these in recent years were the Department of Economic Development's New Growth Path and the National Planning Commission's Draft National Development Plan We know now what the problems are and by and large what needs to change to address them Courage is required now to forge consensus to take decisions on strategies and to start implementing them As in previous years this publication with its slightly different format and appearance seeks to provide analysis and provoke debate on how this might be achieved

*Clever Blacks, Jesus and Nkandla* Gareth Van Onselen, 2014-05-08 Jacob Zuma is a man who walks in two worlds As president of South Africa he is tasked with upholding the principles that define the Constitution and embodying the values they are designed to engender But as an individual a set of private impulses ranging from his religious beliefs to his traditional African cultural convictions to a populist and patriarchal attitude to power defines his world view and many of these impulses run counter to the Bill of Rights The result is an often violent clash between his formal duties and more informal demagogic instincts South Africa's public debate is where that conflict plays itself out Here Gareth van Onselen has put together a comprehensive collection of Zuma's most controversial and often contradictory public statements With some 350 quotes collected along ten themes that define Zuma's personal beliefs *Clever Blacks Jesus and Nkandla* documents some of Zuma's most notorious moments It aims to serve as both an easy guide to Zuma's personal philosophy and a reference point for some of the debates that have defined his political career The quotes represent one of the fundamental fault lines that run through South African discourse today a society trapped between its Third World realities and its much vaunted First World ambitions In many ways Zuma is the epicentre around which the subsequent debate has unfolded

**Co-teaching and co-research in contexts of inequality** Phindile Zifikile Shangase, Daniela

Gachago,Eunice Ndeto Ivala,2023-05-09 There has been a recent surge of interest in the concept of co teaching and co research across institutions of HE locally and globally as a response to limited international mobility due to COVID 19 We see co teaching and co research as teaching and research that connects educators and learners across different institutions and different contexts be it across South Africa Africa or the world Co teaching and co research is linked in this book to the term networked learning following the Networked Learning Editorial Collective s emphasis on relationships and collaboration rather than technology and foregrounding our strong commitment to social justice Our collective experiences have shown that co teaching and co research are not easy endeavours especially when they involve differently positioned and differently resourced contexts students and academics While these collaborations are enriching and exciting they need careful support preparation and time for sustained relationship building topics that we find are not necessarily discussed in the literature around co teaching and co research This book is an attempt towards closing this gap in knowledge by providing a range of chapters documenting personal experiences of academics and practitioners engaging in co teaching and co research across the African continent and beyond facilitated by various networked learning tools and technologies Framed by a spirit of sharing and connection the book provides insights into the benefits and challenges of such collaborations affordances of technologies to bridge unequal divides emerging practices of continental collaboration and beyond Additionally the book provides an unusually honest and nuanced view on co teaching and co research across contexts of inequalities foregrounding relationship and community building rather than technology and emphasising the importance of sustained connection and reflection in these collaborations Applying a wide range of critical theoretical frameworks these evidence based but also reflective and reflexive contributions are a unique and important reminder that behind and through our screens we connect as humans who yearn to learn from each other but also need to learn how to learn from each other when we do not share the same world views
