Nord,2014-07-01 Warren Nord s thoughtful book tackles an issue of great importance in contemporary America the role of religion in our public schools and universities According to Nord public opinion has been excessively polarized by those religious conservatives who would restore religious purposes and practices to public education and by those secular liberals for whom religion is irrelevant to everything in the curriculum While he maintains that public schools and universities must not promote religion he also argues that there are powerful philosophical political moral and constitutional reasons for requiring students to study religion Indeed only if religion is included in the curriculum will students receive a truly liberal education one that takes seriously a variety of ways of understanding the human experience Intended for a broad audience Nord s comprehensive study encompasses American history constitutional law educational theory and practice theology philosophy and ethics It also discusses a number of current controversial issues including multiculturalism moral education creationism academic freedom and the voucher and school choice movements      World History: Patterns of Interaction Florida Chapter Summaries Translation Into Haitian Creole Grade 10 Mcdougal Littell,2005-06-22      *Teaching Global History* Alan J. Singer,2012-04-27 Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity history and the contemporary world All chapters include lesson ideas a sample lesson plan with activity sheets primary source documents and helpful charts graphs photographs and maps High school students responses are woven in throughout Additional material corresponding to each chapter is posted online at [http://people.hofstra.edu/alan\\_j\\_singer](http://people.hofstra.edu/alan_j_singer) The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions leaving little time for an in depth exploration of concepts and historical

themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions  
 Offering an alternative to such pre packaged textbook outlines and materials this text is a powerful resource for promoting  
 thoughtful reflection and debate about what the global history curriculum should be and how to teach it     *McDougal Littell
