Trauma Journalism Mark H. Massé, 2011-10-06 The role of journalists in covering trauma and tragedy isn't new. Witnessing acts of violence, destruction and terror has long been the professional responsibility of countless print and broadcast reporters and photographers. But what is new is a growing awareness of the emotional consequences of such coverage on the victims, their families and loved ones, their communities, and on the journalists whose job it is to tell these stories. Trauma Journalism personalizes this movement with in-depth profiles of reporters, researchers, and trauma experts engaged in an international effort to transform how the media work under the most difficult of conditions. Through biographical sketches concerning several significant traumatic events: Oklahoma City bombing, Columbine school tragedy, 9/11, Iraq War, the South Asian tsunami, Hurricane Katrina, students and working reporters will gain insights into the critical components of contemporary journalism practices affecting news judgment, news gathering techniques, as well as legal and ethical issues. Trauma Journalism calls for the creation through ongoing education of a culture of caring among journalists worldwide.

Emotions and Virtues in Feature Writing Jennifer Martin, 2021-03-22 This book provides an important and original way of understanding how journalists use emotion to communicate to readers, posing the deceptively simple question: how do journalists make us feel something when we read their work? Martin uses case studies of award-winning magazine-style features to illuminate how some of the best writers of literary journalism give readers the gift of experiencing a range of perspectives and emotions in the telling of a single story. Part One of this book discusses the origins and development of narrative journalism and introduces a new theoretical framework, the Virtue Paradigm, and a new textual analysis tool, the Virtue Map. Part Two includes three case studies of prize-winning journalism demonstrating how the Virtue Paradigm and the Virtue Map provide fresh insight into narrative journalism and the ongoing conversation of what it means to live well together in community.

Telling the Untold Story Steve Weinberg, 1992 Author of his own controversial unauthorized biography of Armand Hammer, Steve Weinberg here shows how a new generation of biographers is revealing the lives of powerful individuals in dramatic and

important new ways Trained as investigative journalists today's writers have entered a domain once dominated by university scholars Unlike their more academic predecessors who often wrote nonjudgmental books on the public lives of long dead individuals these new biographers are willing to tackle such powerful living subjects as Nancy Reagan Henry Kissinger Hugh Hefner Pete Rose and Fidel Castro Few of these books are adoring Without cooperation from their subjects and sometimes under threat of lawsuit these writers are probing into private lives and enabling readers to make up their own minds about public figures Tracing the evolution of the craft of biography up to the present day Weinberg draws on interviews with some of today's best biographers as well as his own experience with the Hammer biography to highlight the careers of some of the writers whose work exploded the boundaries of traditional biography When Robert Caro became the first journalist to win a Pulitzer Prize for Biography for his book on Robert Moses it marked the dawn of a new approach to the craft Weinberg also explores the techniques of Philadelphia Inquirer journalists Donald Barlett and James Steele whose jointly authored biographies of Howard Hughes and Nelson Rockefeller mark another sign of how far the genre of biography has come The book is enriched by samples of investigative biography at its best including a scathingly honest profile of the reigning queen of unauthorized biography Kitty Kelley and Calvin Trillin's fascinating New Yorker profile of the Miami Herald's inimitable police reporter Edna Buchanan The living of a life is more difficult than the chronicling of it but the chronicling is certainly no simple task writes Weinberg Telling somebody else's life fully fairly and compellingly is probably an impossible task But it is important to keep pushing the limits of the possible For writers reviewers publishers and general readers Telling the Untold Story is a fascinating look at how a new kind of biographer has forever changed our expectations of the genre and continues to push biography to exciting new limits
