Life Orientation June 2012 Memorandum

Lei Shi

Life Orientation June 2012 Memorandum:

Anti-System Parties Mattia Zulianello, 2019-04-09 This book adopts an innovative conceptualization and analytical framework to the study of anti system parties and represents the first monograph ever published on the topic It features empirical research using original data and combining large N QCA analyses with a wide range of in depth case studies from 18 Western European countries The book adopts a party centric approach to the study of anti system formations by focusing on the major turning points faced by such actors after their initial success long term electoral sustainability the different modalities of integration at the systemic level and the electoral impact of transition to government The author examines in particular the interplay between crucial elements of the internal supply side of anti system parties such as their organizational and ideological features and the political opportunity structure Anti System Parties is a major contribution to the literature on populism anti establishment parties and comparative political parties EU Promotion of Human Rights for LGBTI Persons in Uganda Lydia Malmedie, 2023-12-27 Examining the EU s promotion of human rights for lesbian gay bisexual trans and intersex LGBTI persons in Uganda during the period of 2009 to 2017 this book investigates how a public administration defines and deals with a wicked problem The empirical puzzle of how the topic of human rights for LGBTI persons despite its highly contested nature travelled between Brussels and Kampala became codified in form of LGBTI Guidelines 2013 and institutionalized within EU foreign policy is addressed as one of translation and sensemaking The investigation focuses on the process of problem definition in everyday practice by EU staff and EU member states staff in Brussels and Kampala This book therefore provides key insights into how public administrations deal with wicked problems how contested ideas can become institutionalized and how an idea is translated and made sense of across time levels and cultural boundaries The findings are of interest especially to scholars of wicked problems sociological new institutionalism and public administration as well as international relations and EU studies human rights gender and sexuality studies

Lady Gaga and the Remaking of Celebrity Culture Amber L. Davisson, 2013-07-30 Lady Gaga represents both the height of celebrity and a disruption of the norms surrounding the social position This book charts the way the pop star manages the celebrity persona in her relationships with her fans the development of her gender identity her parodying of other celebrities and her navigation of the legal and economic system that make up the music industry Much of Gaga s ability to maintain ownership of her identity comes from her early decisions to characterize herself as a performance artist For Gaga this means living the persona 24 hours a day seven days a week Gaga mimicks celebrity life in a self conscious way that makes the mimicry apparent Her performance of celebrity is an on going project despite what she may claim she was not born this way The excess of her celebrity is magnified by her title Mother Monster Historically media narratives of celebrities monsters and mothers have centered on uncontrolled excesses that must be contained Gaga adopts these personas but refuses to submit to the containment that comes with each Instructors considering this book for use in a course may request an examination copy

here *Twilight of the British Empire* Chikara Hashimoto,2017-10-04 A wide ranging study of developments in global French language cinema *American Military Life in the 21st Century* Eugenia L. Weiss,Carl Andrew Castro,2018-11-16 A comprehensive guide to the lives and experiences of military service members veterans and their families in the United States today with special emphasis given to those of the post 9 11 era This reference work provides detailed information on the issues U S service members face both stateside and during deployments overseas Issues covered include relations with family substance use housing educational and job training opportunities post traumatic stress disorder and other health issues and experiences of women sexual minorities and ethnic racial minorities in the armed services This set also examines major issues related to military service for people close to the men and women who serve our country such as spouses or partners children and parents grappling with such issues as single parenthood during deployment and bereavement at the loss of a loved one Finally this set is a valuable resource for people seeking a greater understanding of the issues that confront some military service members and veterans from chronic health problems to economic vulnerability to suicide to incarceration The two volumes are written in a comprehensive yet succinct and accessible style by experts familiar with the latest trends and findings **ICIE 2018 6th International Conference on Innovation and Entrepreneurship** Dr. Denise A. D. Bedford,Dr. Elias G. Carayannis,2018-03-05 These proceedings represent the work of researchers participating in the 6th International Conference on Innovation and Entrepreneurship ICIE 2018 which is being co hosted by Georgetown University and George Washington University and is being held at The University of the District of Columbia UDC on 5 6 March 2018 **Managing Deep-sea and Open Ocean Ecosystems at Ocean Basin Scale - Volume 2** J. Murray Roberts,Ellen Kenchington,Telmo Morato,Albertus J. Smit,Jose Angel Alvarez Perez,Stefán Áki Ragnarsson,2025-05-07 This is the second issue of the Research Topic Managing Deep sea and Open Ocean Ecosystems at Ocean Basin Scale The original article collection can be found here Managing Deep sea Ecosystems at Ocean Basin Scale Volume 1 Drawing upon work by the ATLAS 2016 20 and iAtlantic 2019 23 projects this second volume Research Topic explores recent findings and themes emerging as the marine research and management communities embrace assessments of ecosystem time series connectivity biogeography and function at ocean basin scale Research and policy development at this scale has been driven by the realization that multiple interacting stressors created by climate change and anthropogenic impacts are rapidly altering marine ecosystems at the same time as governments seek to promote increased economic output from the marine environment This broad context sets the considerable challenge and opportunity for marine science industry management and policy to shape the frameworks through which this sustainable economic Blue Growth can be achieved Studies built upon new discoveries from poorly understood deep ocean ecosystems e g coral sponge vent chemosynthetic fauna are highlighting the opportunities for the scientific community to create a new evidence base for long term management For example advances in deep sea exploration technology oceanographic data availability modeling resolution and a better understanding

of larval biology and dispersal are fostering more interdisciplinary partnerships between physicists and biologists to model ecosystem connectivity. These connectivity analyses can now be ground truthed by population genetic approaches built on datasets developed from next generation sequencing technologies e.g. RADseq, RADTag, 2bRAD, fostering new understanding of marine ecosystem connectivity.

Corridors of Contagion Victoria Law, 2024-09-10. Tracing the narratives of five incarcerated individuals, *Sentenced to COVID* speaks to the devastating impact of surviving the pandemic inside prison walls. *Corridors of Contagion* brings to light the experiences of five people incarcerated across the United States as they navigate the onset of the pandemic and the many months stretched into years that followed. Journalist Victoria Law combines this storytelling with a trenchant analysis of the structural failures of the US carceral system, failures that made prisons uniquely vulnerable to COVID-19 outbreaks, from overcrowding to solitary confinement, from insufficient healthcare to life sentences. The book portrays the horrors of continual lockdowns not in the comfort of one's own home but in prisons where routine violence and chaos is made even more unimaginable by the complete lack of control over protection from a terrifying and lethal new virus. The pandemic provided an opportunity for lawmakers and policy makers to rethink the nation's addiction to perpetual punishment. Instead, US jails and prisons doubled down on punishment under the guise of pandemic protections. As a result, people behind bars experienced increased stress, mental health challenges, increased violence, and higher rates of deaths, many of which could have been prevented. While the pandemic emergency has been declared over, we are continuing to learn more about the extent of its destruction. *Corridors of Contagion* reminds readers about both the particular horrors experienced by people in cages and the continued role of the US as the world's prison nation.

Gender Hurts Sheila Jeffreys, 2014-04-24. It is only recently that transgenderism has been accepted as a disorder for which treatment is available. In the 1990s, a political movement of transgender activism coalesced to campaign for transgender rights. Considerable social, political, and legal changes are occurring in response, and there is increasing acceptance by governments and many other organisations and actors of the legitimacy of these rights. This provocative and controversial book explores the consequences of these changes and offers a feminist perspective on the ideology and practice of transgenderism, which the author sees as harmful. It explores the effects of transgenderism on the lesbian and gay community, the partners of people who are transgender, children who are identified as transgender, and the people who transgender themselves, and argues that these are negative. In doing so, the book contends that the phenomenon is based upon sex stereotyping, referred to as gender ideology, a conservative ideology that forms the foundation for women's subordination. *Gender Hurts* argues for the abolition of gender, which would remove the rationale for transgenderism. This book will be of interest to scholars and students of political science, feminism, and feminist theory and gender studies.

Realizing the Right to Development United Nations. Office of the High Commissioner for Human Rights, 2013. This book is devoted to the 25th anniversary of the United Nations Declaration on the Right to Development. It contains a collection of analytical studies of various aspects of the right to development, which

include the rule of law and good governance aid trade debt technology transfer intellectual property access to medicines and climate change in the context of an enabling environment at the local regional and international levels It also explores the issues of poverty women and indigenous peoples within the theme of social justice and equity The book considers the strides that have been made over the years in measuring progress in implementing the right to development and possible ways forward to make the right to development a reality for all in an increasingly fragile interdependent and ever changing world
