ANTHONY LIVINGSTON HALL COMMENTS ON Bush's legacy of support for Africa I was dismayed by the number of people who refused to believe that Bush had done more for Africa than any other US president notwithstanding testimonials I proffered from renowned crusaders for African development like Sir Bob Geldof and Bono to support this claim Oprah's school for African girls I applaud Oprah for founding this school for the same reason I applauded Madonna for adopting that African boy She is fulfilling a need which honors our shared humanity in a way that few of us can afford or are even conscientious enough to do Native Americans ethnically cleansing blacks from their tribes Indeed I do marvel at this curious thing that they would rather be condemned as racists for expelling blacks than be criticized as niggards for hoarding their gambling loot French President Nicolas Sarkozy's love affair with the US Sarkozy displays a Blairite affinity for America that any self-respecting Frenchman must find particularly gaulling Bungled terrorist attacks in London and Glasgow Wannabe suicide bombers rammed their jeep packed with explosives into Glasgow Airport on Saturday morning shouting Allah Allah Allah no doubt hoping to go off in a blaze of glory for eternal assignations with their apocryphal 72 virgins Steroids in baseball In fact steroid use has flourished in baseball and other professional sports pursuant to an open conspiracy among players and team owners to feed the gladiatorial lust of fans who want to see bigger stronger and faster cyborgs perform for their atavistic enjoyment **That's What They Want You to Think** Paul Simpson, 2012-03-01 An analysis of twenty nine of the most famous theories featuring assassinations military operations aliens secret societies and government conspiracies Conspiracies They happen every day All it takes is a couple of people and a secret nefarious plan But then there are big conspiracy theories the assassinations cover ups and shadow governments that are endlessly debated on talk radio and the Internet Are they real Are they even possible Or are they just plain paranoid Paul Simpson has researched a wide variety of conspiracies from those historically accepted to those that spark accusations of being a part of it if you disagree with their supporters In reviewing these famous and in some cases infamous theories That's What They Want You to Think does not start from the position of a believer or a debunker In each case Simpson makes up his own mind based on the evidence of

primary documents and some of his conclusions may surprise even the most dedicated conspiracy researcher

Straightforward and engaging That's What They Want You to Think provides food for thought for both conspiracy buffs and skeptics Novices and veteran researchers alike will debate the latest evidence and fresh takes on long standing theories Covering topics as diverse as the JFK assassination and faked moon landings from the bombing of Pearl Harbor to Area 51 and the New World Order Simpson makes you wonder if what you believe is real possible or paranoid Praise for That's What They Want You to Think This lively book looks at a variety of conspiracy theories many well known others not so much from a historical investigative point of view Well worthwhile Booklist

The IPINIONS Journal Anthony Livingston Hall, 2007-05 The iPINIONS Journal Commentaries Vol II In this volume of political and social commentaries Anthony Livingston Hall synthesizes the most critical developments of 2006 with remarkable clarity and inimitable wit But unlike more celebrated columnists who trade in partisan political talking points Hall seems beholden to no ideology and is definitely an equal opportunity critic Moreover you would be hard pressed to find another columnist anywhere who writes as persuasively about the international menace of Iran s nuclear program as he does about the interpersonal dynamics of an NBA Championship series or what the latest oops from Britney Spears portends for western civilization Hall s refreshing worldview may stem from the unique fusion of his Caribbean heritage and American

education But it is clearly the informed passion that permeates all of his commentaries that makes this book so riveting
