**Women in the Arts** Barbara Harbach,Diane Touliatos-Miles,2015-02-27 Is there a need for books about women in the arts exhibitions of women painters readings of women s poetry concerts of music by women composers and conferences highlighting women in the arts One might believe that today the playing field is level but categories still place the word woman before the discipline woman composer woman poet woman artist and so on The ultimate goal is to move the debate away from gender categories which reinforce the notion that men s creativity is not only the norm but better There are many women challenging the status quo and succeeding Change comes slowly since many men and some women in positions of power do not see gender stereotyping as a problem It s been nearly a millennium since Hildegard von Bingen composed music and illuminated manuscripts Shouldn t the time when it was unusual to be a woman composer have past As the great 20th century pedagogue and composer Nadia Boulanger said I ve been a woman for a little over 50 years and have gotten over my initial astonishment As for conducting an orchestra that s a job where I don t think sex plays much part Indeed books like Women in the Arts Eccentric Essays II serve to bring society just a little closer to equality by keeping the accomplishments of women at the forefront of consciousness Technology today is a great asset in documenting the productivity of women and all artistic creations can be codified and archived in contrast to earlier times when creative women s birth and death dates are unknown not even taking into account all their lost creations The essays contained in Women in the Arts Eccentric Essays II reflect the lives of creative artists whether they are teachers scholars and researchers recovering previous generations of women artists or practicing artists creating new masterpieces The promotion of the roles of women in the arts is integral so that they may serve as a resource for future generations of students scholars and researchers and to enhance generations to come enriching culture through the arts

Women in History, Literature, and the Arts Lorrayne Y. Baird-Lange,Thomas A. Copeland,1989 *The Art Songs of Louise Talma* Kendra Preston Leonard,2017-05-18

The Art Songs of Louise Talma presents some of Talma's finest compositions and those most frequently performed during her life. It includes pieces appropriate for beginning, intermediate, and advanced singers and collaborative pianists. The songs include text settings of American, English, and French poets and writers including Native American poems, works by W. H. Auden, Elizabeth Barrett Browning, Emily Dickinson, E. E. Cummings, John Donne, Gerald Manley Hopkins, William Shakespeare, and Wallace Stevens, as well as poems from medieval France and religious texts. Because of the popularity of Talma's choral works and the fact that her works for voice and piano were performed often, this sourcebook will be useful to singers at all stages of their careers as well as scholars of twentieth-century music as a whole. The diversity of compositional approaches Talma used provides a snapshot of American trends in composition during the twentieth century during the course of her career. Talma moved from neo-classicism to serialism and finally to non-strict serial-derived atonality in her works. Inclusion of performance and reception histories of the songs helps trace changing public taste in American art song and the repertoire of performers, particularly those interested in contemporary music.

**Women in World History** Anne Commire, 2002

**Women and Music in America Since 1900** Kristine Helen Burns, 2002
