John Mortimer

Japanese Manual Fanuc:

Flexible Automation in Japan J. Hartley, 2013-04-09 Much has been said and written about Japan's manufacturing prowess. Most of the comment comes from people who are merely visitors to the country and can be best classified as observers looking in from the outside. Other views come from the Japanese themselves in which the double barrier of culture and language filters out much information that would be of real value to Western industrialists. Neither of these limitations apply to John Hartley who has been resident in Japan for the past five years. He understands the culture, can speak the language and has extensive contacts at the highest level. Therefore he is in a unique position to report on the Japanese scene and its activities in advanced manufacturing technology. This he has been doing on a regular basis to IFS magazines: The Industrial Robot, Assembly Automation, Sensor Review and The FMS Magazine. Most of the material in this book is from John Hartley's pen and represents his most significant contributions on flexible automation in Japan to these journals over the last three years. It is augmented with a few other articles written by leading authorities on new technology in Japanese manufacturing industry. *Japanese and American Economic Policies and U.S. Productivity* United States Congress, Joint Economic Committee, Subcommittee on Monetary and Fiscal Policy, 1981 **Mergent International Manual**, 2002 *Moody's International Manual*, 2000 **Bulletin of the Japan Society of Precision Engineering** Seiki Gakkai (Japan), 1981 **Analyzing Japanese High Technologies** Fumio Kodama, 1991 An analysis of the generation, innovation and diffusion of Japanese high technologies and the implications for a paradigm shift in science and technology policies which have hitherto been accepted in business and politics. The work is based on extensive empirical research. **Official Gazette of the United States Patent and Trademark Office**, 1992 **International Journal of the Japan Society for Precision Engineering**, 1999 **Japan Pictorial**, 1981 **JEE, Japan Electronic Engineering**, 1973 Business Japan, 1986-07 Technocrat, 1977 *The Specifications and Applications of Industrial Robots in Japan*, 1997 CIRP Journal of Manufacturing Systems, 1999 Decade of Robotics John Mortimer, 1983 Marking the 10th anniversary of Industrial Robotics magazine. Contains over 40 articles specially written by experts in robotics worldwide. **Industrial Robots** United States Patent and Trademark Office, Office of Technology Assessment and Forecast, 1982 *Patents Abstracts of Japan*, 1985 **Index to the International Annual Reports Collection**, 1985 **Electronics in Japan**, 1981 **Japan Economic Almanac**, 1994
