**Heribert Adam, Kogila Moodley**

## **Life Orientation Grade 9 Question Paper 2012:**

**Childhood Sexuality and AIDS Education** Deevia Bhana, 2015-08-27 Primary schoolchildren are frequently shielded from education on sexuality and sexually transmitted diseases in an effort to protect their innocence. In countries like South Africa where AIDS is particularly widespread, it is especially important to address prevention with younger boys and girls as active social agents with the capacity to engage with AIDS as gendered and sexual beings. This volume addresses the question of children's understanding of AIDS not simply in terms of their dependence but as active participants in the interpretation of their social worlds. The volume draws on an interview and ethnographic based study of young children in two socially diverse South African primary schools as well as interviews conducted with teachers and mothers of young children. It shows how adults sustain the production of childhood sexual innocence and the importance of scaling up programs in AIDS intervention, gender and sexuality. It makes significant contributions to the global debate around childhood sexualities, gender and AIDS education. *Imagined Liberation (2nd edition)* Heribert Adam, Kogila Moodley, 2015-12-01 On a spectrum of hostility towards irregular migrants, South Africa ranks on top, Germany in the middle and Canada at the bottom. South African xenophobic violence by impoverished slum dwellers is directed against fellow Africans. Why would a society that liberated itself in the name of human rights turn against people who escaped human rights violations or unlivable conditions at home? What happened to the expected African solidarity? Why do former victims become victimizers? *Imagined Liberation* asks what xenophobic societies can learn from other immigrant societies which avoided the backlash against multiculturalism in Europe. Creating Life-Long Learners Todd Stanley, 2015-07-30 Wanted for the global workforce: thinkers and those who can teach them. Where K-12 instruction once centered on content and memorization, today's educators want most of all to teach their students to think critically and perceptively. What better way than with project-based learning (PBL)? Author Todd Stanley provides a teacher-friendly, step-by-step approach to implementing PBL, focusing on the 21st-century three R's: readiness, responsibility, and relevance. Educators will be prepared to put this practical methodology to work right away as they learn how to use project and classroom management skills to create a positive, productive learning environment. Develop curriculum around ten different project types. Link projects with today's standards. Teach students how to effectively collaborate and bring out the best in each other. Readers will find an abundance of ideas and clear guidance along with new strategies for instilling the skills students need for tomorrow's workforce. If you are looking for a way to produce higher-level thinkers, you really need to read this book. It is a recipe for successful life-long learners. Tamara Daugherty, Teacher, Lakeville Elementary School. Student lead project-based learning fuses today's classroom with the demands of the fast-paced future. Students need to be able to interact and problem-solve not just with each other but also within the community and with technology. This book is a guide for helping educators make that jump with their instruction. Debra K. Las, Teacher, Rochest Public Schools. XXX International Congress of Psychology: Abstracts
