all taboos and end in devastation as one unexpectedly becomes the third woman Never before published in English and only recently published in French this modernist experimental work has been brought to light by Chelsea Ray's research and translation Marie-Madeleine Alain Montandon,1999 **The Feminist Encyclopedia of French Literature** Eva M. Sartori,1999-07-30 The earliest known literary productions by women living in Europe were probably written by French writers As early as the 12th century women troubadours in the south of France were writing poems French women continued writing through the ages their number increasing as education became more available to women of all classes And yet of the great number of works by women writers who preceded the current feminist movement very few have survived A few writers such as Marie de France George Sand and Simone de Beauvoir became part of the canon But critics mostly male had judged the works of only a few women writers worthy of recognition As part of the feminist move to reclaim women writers and to rethink literary history scholars in French literature began to take a new look at women writers who had been popular during their lifetimes but who had not been admitted into the canon This reference book provides extensive information about French women writers and the world in which they lived Included are several hundred alphabetically arranged entries for authors literary genres such as the novel poetry and the short story literary movements such as classicism realism and surrealism life cycle events particular to women such as menstruation and menopause events and institutions which affected women differently than men such as revolutions wars and laws on marriage divorce and education The volume spans French literature from the Middle Ages to the present and covers those writers who lived and worked mainly in France The entries are written by expert contributors and each includes bibliographical information The entries focus on each writer's awareness of how her gender shaped her outlook and opportunities on how categorizations structures and terms used to describe literary works have been defined for women and the ways in which women writers have responded to these definitions The volume begins with a feminist history of French literature and concludes with a selected general bibliography and a chronology of women writers Solitaires, Solidaires Elise Hugueny-Léger,Caroline Verdier,2015-09-04 *Solitaires Solidaires* stems from the 2013 Women in French conference which celebrated twenty five years since the creation of the network of the same name and brought together the Women in French UK and Women in French in Scotland meetings which had until then been running en solitaire on each side of the border It therefore seemed opportune to reflect on the theme of female solidarity its various shapes and constructions and its meaning Studies included in this bilingual volume focus on the representation of female solidarity and solitude in French and Francophone society literature journalism and history covering texts ranging from the 17th to the 21st centuries The various contributions explore how the construction of female solidarities and identities has depended not only on networks dialogues and correspondences but also and often simultaneously on isolation confrontations and rivalry between women and on unconventional representations of femininity and motherhood *Récits fantastiques* Jean Lorrain,2012-11-01 Jean Lorrain vous propose de découvrir ou de revisiter sa d
