**Liberating Faith** Roger S. Gottlieb, 2003 Table of contents Handbook of Rituals in Contemporary Studies of Religion, 2024-03-11 This book brings together leading international scholars with the aim of exploring ritual perspectives in the study of contemporary religions It combines significant theoretical and methodological reflections and applies it to four main fields relevant to the study of contemporary religions indigeneity new spiritualities and ecology lived religion with Islam and Africa as case studies and finally religion and embodiment The structure and content of the book takes its point of departure from the research topics and collegial network of the internationally acclaimed scholar of ritual studies Professor Anne Christine Hornborg The book is dedicated to her International Handbook of the Religious, Moral and Spiritual Dimensions in Education Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world **Religion Seeking Justice and Peace (Penerbit USM)** Chandra Muzaffar, 2010 Religion Seeking Justice and Peace not only highlights the values that the different religions share in their pursuit of justice and peace but also provides concrete examples of how individuals and institutions from different religious backgrounds have worked for justice and peace throughout history The book also exposes the danger of religious extremism religious exclusivism and other such negative traits to the struggle for justice and peace It takes cognisance of the impact of the larger environment upon religious ideals and at the same time makes a plea for the application of universal values and principles embodied in the various religions to politics Economics culture and society This is particularly important some of the contributors argue at a time like this when humanity is confronted with multiple global crises **Judaism and Justice** Sidney Schwarz, 2008 The first state of the art comprehensive resource to encompass the wide breadth of the rapidly growing field of Judaism and health For Jews religion and medicine and science are not inherently in conflict even within the Torah observant community but rather can be friendly partners in the pursuit of wholesome ends such as truth healing and the advancement of humankind from the Introduction This authoritative volume

part professional handbook part scholarly resource and part source of practical information for laypeople melds the seemingly disparate elements of Judaism and health into a truly multidisciplinary collective enhancing the work within each area and creating new possibilities for synergy across disciplines It is ideal for medical and healthcare providers rabbis educators academic scholars healthcare researchers and caregivers congregational leaders and laypeople with an interest in the most recent and most exciting developments in this new important field

**Burning Center, Porous Borders** Eleazar S. Fernandez, 2011-10-17 Burning Center Porous Borders articulates what the church is and is called to be about in the world a world now globalized to the point that the local is lived globally and the global is lived locally The church must respond creatively and prophetically to the challenges economic disparity war and terrorism diaspora ecological threat health crisis religious diversity and so on posed by our highly globalized world It can do so only if the church's spiritual center burns mightily Conversely it can burn mightily in the spirit of Christ only if its borders are porous and allows the fresh air spirit of change to blow in and out While there is much rhetoric about change the most common response to change is to continue doing business as usual This is particularly the case in the face of perceived global threats In spite of the hoopla and euphoria of the global village walls of division and exclusion are rising hearts are constricting and moral imagination shrinking In response to this context Burning Center Porous Borders proposes alternative ways or images of being a church burning center and porous borders wall buster and bridge builder translocal global mending healer radical hospitality community of the earth spirit household of life abundant dialogians of life and community of hope In Burning Center Porous Borders congregational vitality and progressive praxis kiss and embrace
