Japans Contested War Memories:

Japan's Contested War Memories Philip A. Seaton, 2007-03-12 Japan's Contested War Memories is an important and significant book that explores the struggles within contemporary Japanese society to come to terms with Second World War history. Focusing particularly on 1972 onwards, the period starts with the normalization of relations with China and the return of Okinawa to Japan in 1972 and ends with the sixtieth anniversary commemorations. Analyzing the variety of ways in which the Japanese people narrate, contest and interpret the past, the book is also a major critique of the way the subject has been treated in much of the English language. Philip Seaton concludes that war history in Japan today is more divisive and widely argued over than in any of the other major Second World War combatant nations. Providing a sharp contrast to the many orthodox statements about Japanese ignorance, amnesia and denial about the war, this is an engaging and illuminating study that will appeal to scholars and students of Japanese history, politics, cultural studies, society and memory theory. Local

History and War Memories in Hokkaido Philip A. Seaton, 2015-07-24 Hokkaido, the northernmost island of Japan, barely features in most histories of the Second World War. However, the combination of distinctive war experiences, a vibrant set of local historian groups and powerful media organizations disseminating local war history has generated an identifiable set of local collective memories. Hokkaido's status as an early colonial acquisition also makes the island an important vantage point from which to reassess the course and nature of the Japanese Empire. This book argues that Hokkaido's experiences of war and its militarized post-war constitute a local case study with a much greater national and international significance on both theoretical and empirical grounds than first impressions might suggest. Using Japanese language sources presented for the first time in English and a number of detailed local history case studies, it offers a fascinating and hitherto little-known perspective on the Second World War. It also combines a comprehensive theory of how war memories operate at the local level within a broad historical context that explains Hokkaido's pivotal role within Japanese imperial history. Demonstrating that understanding local history and memories is essential for a nuanced understanding of national history and memories, the book will be highly valuable to students and scholars of Japanese history, Second World War history and Asian history.

The Politics of War Memory in Japan Kamila Szczepanska, 2014-05-09 Since the 1990s, questions of Japanese wartime conduct, apologies for aggression and compensation to former victims of the country's imperial policies have been brought to the fore of national and regional politics. The state is undoubtedly the most important actor in the process of memory production and, along with conservative legislators and the grass root revisionist movement, there has been a consistent trend towards denying or undermining the existing acknowledgments of responsibility for Japan's wartime past. However, to fully comprehend war memory in Japan, due attention must be paid to competing discourses that demand an alternative view and only then can the complexity of Japanese war memory and attitudes towards the legacies of the Asia Pacific war be understood. *The Politics of War Memory in Japan* examines the involvement of five civil society actors in the struggle over

remembering and addressing the wartime past in Japan today In studying progressive war memory activists it quickly becomes clear that the apologia by conservative politicians cannot be treated as representative of the opinion of the majority of the Japanese public Indeed this book seeks to remedy the disparity between studies devoted to the official level of addressing the history issue and the grass root historical revisionist movement on the one side and progressive activism on the other Furthermore it contributes to scholarly debates on the state of civil society in Japan challenging the characterisation of Japanese civil society as a depoliticised space by demonstrating a more contentious side of civil society activism Drawing important new empirical research this book will be of huge interest to students and scholars of Japanese civil society Japanese politics Japanese history and memory in Japan

Remembering the Road to World War Two Patrick Finney, 2010-09-13 Remembering the Road to World War Two is a broad and comparative international survey of the historiography of the origins of the Second World War It explores how in the case of each of the major combatant countries historical writing on the origins of the Second World War has been inextricably linked with conceptions of national identity and collective memory *The Journal of Japanese Studies*, 2009 A multidisciplinary forum for communicating new information new interpretations and recent research results concerning Japan to the English reading world

Japan's War Memories George L. Hicks, 1997 In recent years media attention has been belatedly directed towards reviving World War II issues involving Japan This study deals first with the manner in which such issues so long fell into abeyance under Cold War conditions which tracing the vast and varied writing on the war which meanwhile appeared in Japan Evolving Japanese views on the war are largely focussed on debate over the revision of the post war constitution especially its renunciation of war potential The book also contains the first overview of the decades long litigation within Japan on the screening of textbooks especially on the war *From Cultures of War to Cultures of Peace*

Takashi Yoshida, 2014 Takashi Yoshida provides a historical analysis of war and peace museums from the late nineteenth century to the present and traces the historical development of a pacifist discourse in postwar Japan that centered on Japan's war crimes and responsibility during the so called Fifteen Year War which began in 1931 with Japan's invasion of Manchuria and ended in 1945 with the nation's defeat Prior to the defeat a culture of war gripped the Japanese empire Every segment of Japanese popular culture during the war bore witness to the flood of patriotism In this book Yoshida attempts to demonstrate that the acceptance of Japanese wartime aggression and atrocities as historical facts remains evident to this day in the culture of peace museums in Japan Those who have little knowledge of contemporary Japan often hastily conclude that the Japanese have been united and monolithic in the way they feel the war should be remembered This book seeks to challenge that assumption

Okuma,2008 *Guahan* Nicholas J. Goetzfridt,2011-03-31

Goetzfridt's work demonstrates the dynamics of history each generation considering past events in light of current realities and contemporary understandings of the world. This volume therefore is important not simply because it provides us with an invaluable and substantial fount of references that will be supremely useful to teachers, scholars, and all enthusiasts of Mariana Islands history. Its importance lies also in its packaging as a resource for current and future generations to understand the changing face and contested space of Guam history from the Foreword by Anne Perez Hattori. Blending bibliographic integrity with absorbing essays on a wide range of historical interpretations, Nicholas Goetzfridt offers a new approach to the history of Guam. Here is a treasure trove of ideas, historiographies, and opportunities that allows readers to reassess previously held notions and conclusions about Guam's past and the heritage of the indigenous Chamorro people. Particular attention is given to Chamorro perspectives and the impact of more than four hundred years of colonial presences on Micronesia's largest island. Extensive cross references and generous but targeted samples of historical narratives compliment the bibliographic essays. Detailed Name and Subject Indexes to the book's 326 entries cover accounts and interpretations of the island from Ferdinand Magellan's discovery of Guahan (Guam) in the Chamorro language in 1521 to recent events including the Japanese occupation and the American liberation of Guam in 1944. The indexes enable easy and extensive access to a bounty of information. The Place Index contains both large and localized geographic realms that are placed vividly in the context of these histories. An insightful Foreword by Chamorro scholar Anne Perez Hattori is included.

War Memory and Social Politics in Japan, 1945-2005 Franziska Seraphim, 2006. Japan has long wrestled with the memories and legacies of World War II. In the aftermath of defeat, war memory developed as an integral part of particular and divergent approaches to postwar democracy. In the last six decades, the demands placed upon postwar democracy have shifted considerably, from social protest through high economic growth to Japan's relations in Asia, and the meanings of the war shifted with them. This book unravels the political dynamics that governed the place of war memory in public life. Far from reconciling with the victims of Japanese imperialism, successive conservative administrations have left the memory of the war to representatives of special interests and citizen movements, all of whom used war memory to further their own interests. Franziska Seraphim traces the activism of five prominent civic organizations to examine the ways in which diverse organized memories have secured legitimate niches within the public sphere. The history of these domestic conflicts over the commemoration of the war, the manipulation of national symbols, the teaching of history, or the articulation of relations with China and Korea is crucial to the current discourse about apology and reconciliation in East Asia and provides essential context for the global debate on war memory.
