The FIRED Leader Paul McCarthy, 2023-11-27 Business Book Awards 2024 Finalist To survive disruption organizations need disruptive leaders So they hire them And then they fire them It s the open secret everyone in the leadership industry knows but nobody is addressing leadership culture is toxic and leadership systems have failed Publicly organizations say they want leaders to be innovative thinkers who challenge the status quo Privately conventional leadership culture wants nothing of the sort Leaders deemed as a bad culture fit quickly find themselves marginalized ostracized and even exorcised The qualities that get them hired are the ones that get them fired Yet these rebels and nonconformists often embody the very leadership qualities that organizations so desperately need to navigate disruption and adapt to the new normal of constant change Radically refreshing and practical this book identifies five leadership qualities F I R E D Leadership™ that are key to tomorrow s leadership success and offers a step by step blueprint to show organizations how to integrate these five crucial qualities into their current leadership identification recruitment onboarding and development processes Exactly what we need to fix our broken leaders Whitney Johnson A necessary read for anyone wanting to lead bravely John Spence Leadership maverick Paul McCarthy shows organizations how to reframe how they view their troublemakers agitators rebels oddballs and shit stirrers to see the hidden leadership qualities driving those behaviors and why they need them so desperately

Libertarian People, Planet, and Religion Joerg Rieger, Terra Rowe, 2024-05-29 There is growing consensus that life on the planet is in peril if climate change continues at its current pace At stake is not only the future of many species but of humanity itself As an increasing number of ecological economists have emphasized these problems will only be adequately addressed by re examining economic systems from an ecological perspective fundamentally calling into question assumptions of unlimited growth and the maximization of shareholder profit foundational to neoliberal capitalism Religion and ecology scholars have also increasingly emphasized the ways climate change challenges assumed divides between nature and culture religion and labor economy and ecology and calls for critical and constructive engagement with the religion economy and ecology nexus Often though religious engagements with economy and ecology have placed emphasis on individual morality action and agency at the level of consumption patterns or have suggested mere modifications within existing economic paradigms Contributors to this volume call into question the adequacy of this approach in light of the urgency of climate change which is always ever entwined with ongoing patterns of exploitation oppression and colonialism in current economic systems Rather than tweaking a system of exploitation for instance by emphasizing individual consumption or care for human and non human victims these authors articulate important opportunities for religious engagement activism resistance and solidarity around issues of production and labor Recalling that Marx linked agencies and labor of people as well as the other than human world these authors aim to articulate a sense in which liberation of people and the planet are intertwined and can be accomplished only through collaboration for their common good The basic intuition driving this volume is that while

Christianity has by and large become the handmaiden of exploitative capitalism and empire it might also reclaim latent theologies and religious practices that call into question the fundamental valuation of labor without recognition or rest of extractive exploitation and a winner take all praxis In the process Christianity might reclaim and reinvest in tenuous historical materializations of transformed ecological and economic relationships while economics might be re informed by a valuation of the shared oikos as well as a just accounting of and remuneration for labor Together they might serve the aim of the flourishing of all people and the planet *Management* Christopher P. Neck,Jeffery D. Houghton,Emma L.
