Class Size Peter Blatchford, Kam Wing Chan, Maurice Galton, Kwok Chan Lai, John Chi-Kin Lee, 2016-04-28 Much debate research and commentary about class sizes in schools is limited because of an exclusive concern with class size and pupil academic attainment and a neglect of classroom processes which might help explain class size effects or lack of them Very little is known about the central question how can teachers make the most of class size changes Much of the commentary on class size effects has focused on Western and English speaking countries but there are promising developments elsewhere particularly the Small Class Teaching initiatives in East Asia in the past decade which have brought new knowledge and practical wisdom to the class size debate This book seeks to move toward a clearer view of what we know and do not know about class size effects and to identify future steps in terms of policy and research There is a huge and exciting potential for international collaboration on knowledge concerning class size effects which can help with research informed policy The book aims to draw out Eastern and Western international contexts which underpin any understanding of the role of class size in school learning The book has chapters by an international team of experts on class size effects including Maurice Galton and John Hattie Chapters are organised into four main sections Socio cultural and political contexts to the class size debate in the East and West Research evidence on class size Class size and classroom processes likely to be related to class size changes Professional development for small class teaching in East Asia

Positive Leadership for Flourishing Schools Keith D. Walker, Benjamin Kutsyruba, Sabre Cherkowski, 2021-02-01 Most educators will agree that they would love to see each student and staff member in schools flourish Furthermore it would be great to see entire communities experience the transformative power of circumstances that feature happy and vibrant learning However what does it mean to experience flourishing in schools What is the role of positive leadership in this process What can we learn from inquiring into the positive emotional and social aspects of the work of school leaders Building on our research on flourishing in schools this book highlights the stories and perspectives of educators and school leaders at all levels of the school system and demonstrate the intricacies of how positive leadership contributes to well being in schools and encourages flourishing in these schools This book aligns with a growing shift in psychology and organizational studies to frame research using phenomena and constructs such as resilience compassion hope efficacy self determination and meaningfulness at work and in other areas of life Research findings from the disciplines of both positive psychology and positive organization studies

bring these positive research intelligences into the field of education to study what works in school leadership practices what goes well what supports growth and what brings vitality to people in school organizations Research in positive psychology contends that attending to the strengths positive outlooks habits and mental models as opposed to a deficit oriented perspective is beneficial to increasing subjective wellbeing by increasing resilience vitality and happiness and decreasing stress anxiety and depression How we imagine leading teaching and learning in schools are implicated in these understandings and help us to contemplate the benefits of focus positive leadership in school organizations Powerful insights into human inquiry and positive psychology are gained through qualitative study and most of the chapters of this book are grounded in such research Importantly chapters in this book provide a varied repertoire of answers to the question that underpins this shift in research toward a positive organizational perspective How does positive leadership leverage what works well to instill in each community member a sense of their value and capacity to contribute encourage wellbeing for all and create school contexts of flourishing This edited collection provides many examples invitations and inspiration for readers to notice in their own contexts in ways that encourage them to shift and grow through moving toward appreciative strengths based positive approaches to teaching learning and especially leading in all school contexts
