Caldwell, 2009 For the two generations who have grown up since Lyndon Johnson was president the events as well as the thinking behind the revolutionary and romantic pretensions of the 1960s are almost equally unclear This was the era of the Beatles the Rolling Stones and the Summer of Love it was also at the heart of the civil rights and anti War movements The year 1968 saw the assassination of Martin Luther King Jr and Robert F Kennedy the ascendance of the hippies and Yippies Black Power Neo Marxism and the beginnings of Postmodernism When student radicals occupied Columbia University in 1968 they were showing solidarity with student uprisings in Paris and in Frankfurt This unique novel explores the tensions that were manifest in the student riots in West Germany following the shooting of the student leader Rudi Dutschke the student revolt at Columbia University and the tumultuous French May uprising all of which took place in the spring of 1968 At the heart of the book lie timely concerns regarding the impotence of liberalism within a self perpetuating system that is fluid enough to contain the forces that would bring about real change Technically a novel 1968 walks a fine line between fiction and nonfiction Through its historically faithful storyline its biographical portrayals of historical figures and its authentic and accurate intellectual grounding 1968 follows an entirely documentary agenda Well researched historical characters include Tom Hayden founder of the U S Students for a Democratic Society SDS Mark Rudd SDS chairman at Columbia Red Rudi Daniel Cohn Bendit Danny the Red now a member of the European Parliament Ted Gold of the explosive Weathermen Karl Wolff of the German SDS Herbert Marcuse father of the New Left Theodor Adorno father of modern Critical Theory Hannah Arendt and the ghosts of Walter Benjamin Charles Baudelaire and Karl Marx They interact with a cast of fictional characters in a real life story of militant

politics cultural upheaval and intellectual radicalism Penetrating questions concerning civil disobedience and cultural hegemony run through the book Does revolutionary social change spring from a shift in culture as the hippies saw it Or does a new culture evolve out of revolutionary action as posited by Marx and the New Left What is the proper relationship between theory and practice Is this the revolutionary moment Who will lead the revolution now that working people have been seduced into the very fabric of late capitalism
