When Doctors Kill Joshua A. Perper, Stephen J. Cina, 2010-08-12 It would come as no surprise that many readers may be shocked and intrigued by the title of our book Some especially our medical colleagues may wonder why it is even worthwhile to raise the issue of killing by doctors Killing is clearly an thetical to the Art and Science of Medicine which is geared toward easing pain and suffering and to saving lives rather than smothering them Doctors should be a source of comfort rather than a cause for alarm Nevertheless although they often don t want to admit it doctors are people too Physicians have the same genetic library of both endearing qualities and character defects as the rest of us but their vocation places them in a position to intimately interject themselves into the lives of other people In most cases fortunately the positive traits are dominant and doctors do more good than harm While physicists and mathematicians paved the road to the stars and deciphered the mysteries of the atom they simultaneously unleashed destructive powers that may one day bring about the annihilation of our planet Concurrently doctors and allied scientists have delved into the deep secrets of the body and mind mastering the anatomy and physiology of the human body even mapping the very molecules that make us who we are But make no mistake a person is not simply an elegant b logical machine to be marveled at then dissected

Lady Gaga and the Remaking of Celebrity Culture Amber L. Davisson, 2013-07-30 Lady Gaga represents both the height of celebrity and a disruption of the norms surrounding the social position This book charts the way the pop star manages the celebrity persona in her relationships with her fans the development of her gender identity her parodying of other celebrities and her navigation of the legal and economic system that make up the music industry Much of Gaga s ability to maintain ownership of her identity comes from her early decisions to characterize herself as a performance artist For Gaga this means living the persona 24 hours a day seven days a week Gaga mimicks celebrity life in a self conscious way that makes the mimicry apparent Her performance of celebrity is an on going project despite what she may claim she was not born this way The excess of her celebrity is magnified by her title Mother Monster Historically media narratives of celebrities monsters and mothers have centered on uncontrolled excesses that must be contained Gaga adopts these personas but refuses to submit to the containment that comes with each
