Her and her husband were friends with the likes of Lord Byron and George Gordon, who frequently joined them in very rousing literary discussions that turned out to spark the idea of Frankenstein.</p>
<p>Historical information about the period of publication:</p> <p>In the 1800's, the industrial revolution was taking place which caused the launching of many new scientific ideas. Also, Darwinistic ideas were being spread, which had a direct influence on the writing of Frankenstein.</p>	<p>Other works by the author:</p> <p>The Last Man Lodore Mathilda</p>
<p>Plot summary:</p> <p>Frankenstein begins as a set of letters that Roger Walton, a captain, is writing to his sister explaining why he is on a journey to the Arctic. He reveals that he met a man, Victor Frankenstein, at sea, who they carried aboard and who discloses a very bizarre story to him. Victor tells Walton the story of how he was simply a boy interested in natural philosophy at Ingolstadt, when he discovered the secret to creating life. After months of tiresome and consuming work he created a monster and immediately abandoned it in disgust. Two years later Frankenstein's brother, William, is found dead, Justine, Frankenstein's friend, is accused and found guilty, and Victor immediately knows that it was this fiend that did this. Victor travels to the mountains as a means of escape, but instead finds himself face to face with the monster. The monster tells him that he is extremely lonely. The fiend had, for his first two years, watched a loving family and hoped to one day gain acceptance from them. Through spying on them he was able to learn both written and spoken language. The family rejected him, and so he swore revenge on his creator. The monster now asks Victor to make him a female companion. After being threatened with his life, Victor complies but when he is almost finished he realizes what he has done and destroys the body. The monster, enraged, strangles Henry Clerval as a warning sign to Victor. After narrowly escaping conviction for Clerval's death, Victor returns home and marries Elizabeth. On the night of their honeymoon Victor is ready to face the monster, but instead of attacking Victor, the fiend kills Elizabeth and later on he kills Alphonse, Victor's father. With no more familial ties and utterly miserable, Victor sets out on a quest to find and destroy what he created. This journey leads him to the arctic and to where Walton finds him. His story now told, Victor dies shortly thereafter. The monster finds a way on board and laments his creator's death. Ultimately he is sorry for the thing he has become. Walton realizes from this story that his family means more than glory and so he turns around and heads home.</p>
