questions invite the reader to reflect on his/her own experiences as they relate to the material covered in the next chapter. These can be used as discussion points for a class or small group or simply as pre-reading prompts to enhance comprehension. Teachers in Action boxes contain real-life narratives from practicing teachers. These cases are designed to expand upon key issues presented in each chapter. Every case is accompanied by the author's personal reflection on the case. These reflections are intended to give the reader an opinion against which he/she can measure his/her own reactions. After each case, the reader is prompted to think about the narrative presented and think about the way that his/her reactions compare with those presented by the author. Go There boxes provide links to Web sites that offer additional resources for teachers: lesson plans and other activities to enhance a social studies classroom. This text is accompanied by a dynamic Instructor's Resources CD. The CD includes classroom video footage that can be shown in class to illustrate the concepts presented in the book and stimulate class discussion.

A Book For Every Teacher Nan Li, 2015-03-01. A Book for Every Teacher: Teaching English Language Learners is a unique and compressive text written for mainstream classroom teachers. The passion for writing this book comes from our working experiences with the K-12 teachers in four school districts through our ELL Center professional development program. Through this program, we provide professional training through our federally funded research and service projects. The purpose of our professional training is to prepare general education teachers to work effectively with English language learners (ELLs). While working with the teachers on a daily basis, we know the immediate needs of the teachers. This motivated us to embark on this book project. In recent years, the ELL school population has the highest increase among school populations. As the NEA data indicates, providing ELL students with high-quality services and programs is an important investment in America's future. NEA 2013. This book is our investment in helping teachers to meet their challenges and provide useful information and strategies for teaching ELLs. The book is designed with K-12 teachers in mind. It is best used by teachers who have or will have ELLs in their classrooms and who seek information and strategies to better work with and serve their ELLs to achieve academic success. With this design, teachers can use the book as a text or reference tool. This book can also be adopted as text materials for professional training. Teachers are the most important factor for ELLs' academic success.
