

MAKING INFERENCES

Name: _____

JUST BE YOURSELF

Jenny was about to start her first day at a new school. She jumped out of bed early and proudly put on her new school uniform. She couldn't wait to board the school bus and start making friends. When she got on the bus she started showing everyone her cool magic tricks. But all the students moved away from her and sat at front of the bus. When she got to school she tried making lots of jokes in class to get the other students to like her. But the other kids just gave her strange looks or ignored her. So at lunch time she decided to just be herself. She asked the other kids about their weekend and their hobbies. Suddenly a large group had formed around her. Everyone was interested in getting to know the new girl! And that's how Jenny finally made friends at her new school.

1. How was Jenny feeling about her first day of school?

How did you make this inference?

2. Did the students like Jenny's magic tricks and her jokes?

How did you make this inference?

3. Why did the other students like Jenny at the end?

How did you make this inference?
