

The background is a dark, atmospheric illustration of a room. In the center, a large, ornate chair with a patterned seat cushion stands next to a table covered with a white cloth, holding a vase. The wall behind them is covered in numerous framed pictures of various sizes and subjects. To the left, a large, ornate vase sits on a pedestal. The overall mood is mysterious and elegant.

the first time the neglected area of the relationship between Surrealism and popular culture including Surrealism's engagement with cinema and attempts to address the increased critical interest in what in the past were more neglected figures such as Michel Leiris and Georges Bataille. Particular emphasis is given to the earlier documents and influences upon the Surrealist movement as well as to the period of its internationalism during the 1930s and the texts cover Surrealism in Britain and Belgium as well as France. This fascinating collection presents what was most vital about this complex and often contradictory movement and serves as an essential reference book for scholars as well as stimulating reading for all those with a general interest in the subject.

"The Beautiful Language of My Century" Tom McDonough, 2007 In postwar France the aesthetics of appropriation and collage gave cultural form to a struggle over meaning. A new wave of avant garde experimentation used or stole plagiarized and expropriated elements from advertising, journalism, literature, art and other sources of common discourse: the ironically named beautiful language of this book's title itself an appropriation from Guy Debord's collaged *Mémoires*. Redeployed often in startling or pointed juxtapositions, these elements took on newly oppositional meanings. A famous photograph taken inside the occupied Sorbonne in May 1968, for example, shows a massive academic painting altered by a clever cartoonish speech bubble that transforms the painting into a parody of itself and memorializes an event very different from the one captured by the original artist. *The Beautiful Language of My Century* describes the various forms of critical culture that culminated in the events of May 1968 and investigates the ways those forms have come down to us today. McDonough explores the montage practice developed by Guy Debord and his situationist colleagues under the name of *détournement* and its expression in the later fifties as a form of cultural theft. He addresses the influence of colonialism on these practices, examining a 1961 exhibit of torn posters of the Algerian War, *La France déchirée*, Godard's early film *Le Petit Soldat* and Christo's Project for a Temporary Wall of Steel Drums. He discusses the French left's adoption in the mid sixties of the end of art as a theoretical position and describes the leftist idea of the *féte* as a Rabelaisian and revolutionary upwelling of everything that is low. This influential conception inspired equally by the American urban revolts of the sixties and the writings of theorists Marcel Mauss and Georges Bataille, coalesced into a new image of revolution, a new model of contestation in the events of May 1968 when the struggle over language and culture merged with a broader resistance to capitalist modernization.
