Malory S Anatomy Of Chivalry Characterization In The Morte Darthur:

Malory's Anatomy of Chivalry Paul Rovang, 2014-11-05 This book is the first systematic study in decades of Malory's development of his characters in the *Morte Darthur*. Focusing on sixteen key figures in the most important medieval English treatment of the Arthurian saga, it examines Malory's thematic characterization of individual rulers, knights, and ladies in keeping with the twin trajectories of his history of the Round Table and fifteenth-century English history. Looking at how Malory develops his characters as exemplars of kingship, knighthood, and womanhood, the book traces the medieval author's exploration of the values constituting chivalry as embodied in individual characters, a process that enabled him to formulate a vision of those values for his own troubled period of the Wars of the Roses. This book further explores the contribution Malory's art of characterization makes to the literary and aesthetic power of the *Morte Darthur*. Each chapter's focus on individual characters makes the book not only an integrated thematic overview but also a useful reference for focused study of particular Arthurian figures. As such, the book is designed to meet the interests and needs of both professional scholars and students of Arthurian and medieval literature.

Arthurian Literature XXXVII Megan G. Leitch, Kevin S. Whetter, 2022 New and fresh assessments of Malory's *Morte Darthur*. The essays here are devoted to that seminal Arthurian work, Sir Thomas Malory's *Le Morte Darthur*. Developments of papers first given at the Malory at 550 Old and New conference, they emphasise here the second part of its remit. Accordingly, several contributors focus new attention on Malory's style, using his stock phrases, metaphors, characterization, or manipulation of sources to argue for a deeper appreciation of his merits as an author. If, as others illustrate, Malory is a much better artist than his twentieth-century reputation allowed, then there is a renewed need to reassess the vexed question of the possible originality of his *Tale of Sir Gareth of Orkeney*. Similarly, fresh approaches underlie those essays re-examining Malory's attitude to time and the sacred in *The Sankgreal*, the manner in which the ghosts of Lot and his sons highlight potential failures in the Round Table Oath, or the pleasures and pitfalls of Arthurian hospitality. The remaining contributions argue for new approaches to Malory's narrative gaps, Launcelot's status as a victim of sexual violence, and the importance of rejecting Victorian moral attitudes towards Gwennyvere and Isode, moralizing that still informs much recent scholarship addressing Malory's female characters. Contributors: Joyce Coleman, Elizabeth Edwards, Kristina Hildebrand, Cathy Hume, David F. Johnson, Megan Leitch, Andrew Lynch, Molly A. Martin, Cory James Rushton, Fiona Tolhurst, Michael W. Twomey.

Convention and the Individual in Medieval English Romance Lucy Brookes, 2025-04 Offers a nuanced reading of character and subjectivity in medieval romance via an exploration of its conventions. Medieval romances can be characterised by their formulaic motifs, predictable plots, and stock figures and character types. This book offers a fresh perspective on these conventions, arguing that authors used them and the expectations they generate as a form of shorthand to interiority. Understanding romance conventions in this way reveals that romance characters' complex and often contradictory inner lives are made available precisely through the genre's narrative.

structures shapes and norms Drawing upon recent work in the History of Emotions and Affect Theory the author explores character and subjectivity in a variety of English romance texts from 1100 to 1500 such as Amis and Amiloun Le Bone Florence of Rome The Squire of Low Degree Sir Orfeo Sir Gawain and the Green Knight and Malory s Le Morte Darthur Through new readings of these texts the book demonstrates the contribution made by romance to the growing significance of the individual in fiction after the twelfth century by paying particular attention to the ways in which convention expectation and genre intersect with character formation and the representation of identity ade by romance to the growing significance of the individual in fiction after the twelfth century by paying particular attention to the ways in which convention expectation and genre intersect with character formation and the representation of identity ade by romance to the growing significance of the individual in fiction after the twelfth century by paying particular attention to the ways in which convention expectation and genre intersect with character formation and the representation of identity
