Construction Business Management John E. Schaufelberger, 2011-11-21. This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Construction is a risky business. And unfortunately the reality is that construction company managers often lack the necessary business management skills needed to ensure the survival of their firms. This groundbreaking new book is the first of its kind that consolidates critical business management topics and presents them practically and accessibly by showing how they relate to the management of a construction company.

Construction Safety: Economics and Informatics Perspectives Rita Yi Man Li, 2022-11-30. This book covers the economics of construction safety such as the asymmetric information of different construction practitioners in Hong Kong, studies feminism in Australia's traditionally male dominated construction industry, and researches an efficient Small Scale Contractors construction health and safety performance management in Zambia. It also constructs the risk rating matrix and assesses occupational hazards identification and risk Assessment in Kaligandaki's Construction Project. Besides, it throws light on construction safety informatics such as scaffolds safety via rule based safety checking and BIM. It compares safety awareness in academic databases in construction, manufacturing, traffic, and health and food industries. It studies construction real estate hazard and urban renewal hazard articles indexed on the Web of Science. It conducts a systematic literature review on safety culture. Lastly, it reviewed refurbishment and demolition work in Hong Kong's legal databases.
