Women Love Girth... the Fattest 100 Facts on Maphead Jason Young, 2013-01 In this book we have hand picked the most sophisticated unanticipated absorbing if not at times crackpot original and musing book reviews of Maphead Charting the Wide Weird World of Geography Wonks Don t say we didn t warn you these reviews are known to shock with their unconventionality or intimacy Some may be startled by their biting sincerity others may be spellbound by their unbridled flights of fantasy Don t buy this book if 1 You don t have nerves of steel 2 You expect to get pregnant in the next five minutes 3 You ve heard it all

The West and the Word Steffen Wöll, 2020-10-12 Western expansion in North America has mainly been described as either a linear sequence energized by nineteenth century nation building processes at a moving frontier or as the practice of settler colonialism and its exploitation of resources and displacement of nonwhite peoples This book suggests that shifting the focus from this binary pattern

towards spatial imaginations and spatialization processes a new theoretical framework developed at SFB 1199 provides novel insights into the placemaking dynamics of the American West It brings to light a discursive diversity that often contradicts unidirectional interpretive patterns It becomes clear that while some discourses solidified into spatial metanarratives like the character shaping clash of civilizations at the frontier or manifest destiny alternative spatial imaginations exist juxtaposed to or obfuscated by canonical interpretations Making use of a variety of sources including works of literature poetry newspapers paintings and speeches to access spatialization processes on several sociocultural scales the book presents a careful exploration of the parameters that informed the creation affirmation and subversion of spatial imagination of the American West throughout the nineteenth century from the perspective of American Studies *International Studies* Sheldon Anderson, Mark Allen Peterson, Stanley W. Toops, Jeanne A.K. Hey, 2014-07-08 This core text is the first to provide a much needed interdisciplinary approach to international studies Emphasizing the interconnected nature of history geography anthropology economics and political science *International Studies* details the methodologies and subject matter of each discipline then applies these discipline lenses to seven regions Europe East Asia and the Pacific South and Central Asia sub Saharan Africa the Middle East and North Africa Latin America and North America This disciplinary and regional combination provides an indispensable cohesive framework for understanding global issues The fully updated fourth edition includes four new global issues chapters The Refugee Crisis in Europe The Syrian Civil War and the Rise of the Islamic State Global Climate Change and The Globalization of Modern Sports **Crossing Borders** Harry I. Chernotsky, Heidi H. Hobbs, 2015-02-10 In *Crossing Borders* authors Harry Chernotsky and Heidi Hobbs provide an introduction to international studies that utilizes different disciplinary approaches in understanding the global arena Geographic political economic social and cultural borders provide the framework for critical analysis as explicit connections to the different disciplines are made through both historical and theoretical analysis This Second Edition is thoroughly updated to reflect recent events relating to cyberterrorism ISIS Ebola South Sudan Ukraine and other critical hotspots It offers new color maps and features an expanded list of resources clear learning objectives and a full suite of online learning tools found in SAGE edge

Said So! Ken Jennings, 2012-12-04 Draws on medical case histories scientific findings and personal research by the author to separate myth from fact and debunk a vast array of parental edicts

Brainiac Ken Jennings, 2007-10-30 NATIONAL BESTSELLER A witty charming and engaging dive into trivia s colorful history from America s highest earning game show contestant of all time and host of Jeopardy Insightful informative and written with a strong dose of humor and humility I loved this book Will Shortz crossword editor The New York Times Ken Jennings is trivia s undisputed king and as he traces his rise from anonymous computer programmer to nerd folk icon he explores his newly conquered kingdom the world of trivia itself Trivia he has found is centuries older than his childhood obsession with it Whisking us from the coffeehouses of seventeenth century London to the Internet age Jennings chronicles the ups and downs of the trivia fad the quiz book explosion of the Jazz Age the rise fall and rise again of TV quiz shows the nostalgic campus trivia of the 1960s and the 1980s when Trivial Pursuit again made it fashionable to be a know it all Jennings also investigates the shadowy demimonde of today s trivia subculture guiding us on a tour of trivia across America He goes head to head with the blowhards and diehards of the college quiz bowl circuit the slightly soused faithful of the Boston pub trivia scene and the raucous participants in the annual Q A marathon in Stevens Point Wisconsin The World s Largest Trivia Contest And of course he takes us behind the scenes of his improbable 75 game run on Jeopardy But above all Brainiac is a love letter to the useless fact Who knew that there s a crater on Venus named after Laura Ingalls Wilder Ken Jennings that s who Engaging and erudite Brainiac is an irresistible celebration of nostalgia curiosity and geeky obsession in a word trivia

Charting the World Richard Panchyk, 2011-08-01 As soon as early humans began to scratch images on cave walls they began to create maps And while these first drawings were used to find hunting grounds or avoid danger they later developed into far more complex navigational tools Charting the World tells the fascinating history of maps and mapmaking navigators and explorers and the ways that technology has enhanced our ability to understand the world around us Richly illustrated with full color maps and diagrams it gives children an in depth appreciation of geographical concepts and principles and shows them how to unlock the wealth of information maps contain It also features 21 hands on activities for readers to put their new skills to the test Children will build a three dimensional island model using a contour map engrave a simple map on an aluminum printing plate determine the elevation of hills in their neighborhood draw a treasure map and have a friend search for the hidden stash create a nautical chart of a small puddle survey their backyard or local park navigate a course using a compass and much more Now more than ever the study of geography is crucial to understanding our ever changing planet from political change and warfare to environmental conservation and population growth
