

GRADE 11 PHYSICAL SCIENCES MARCH TEST

QUESTION 1

Various options are provided as possible answers to the following questions. Choose the correct answer and write **ONLY** the LETTER (A-D) next to the QUESTION NUMBER (1.1-1.6) on your folio paper. Example 1.7. D.

- 1.1 The graphs below show the relationship between the net force and the acceleration for two masses X and Y.

Which one of the following statements is true?

- A X has a greater mass.
 - B The bodies have equal mass.
 - C Y has a greater mass.
 - D The mass would not affect the gradient of the graph.
- 1.2 In which of the following cases would the resultant force acting on an object be equal to 0N.
- A An object moving with constant acceleration.
 - B When the only force acting on the object is gravitational acceleration.
 - C An object that undergoes equal displacements every second.
 - D An object is moving with increasing acceleration.
- 1.3 Which of the statements below best describes Weightlessness?
- A An object moving at constant velocity upwards from the ground.
 - B An object moving at constant velocity downwards from the ground.
 - C An object that is accelerated upwards away from the ground by a constant applied force.
 - D An object accelerates downwards towards the Earth with an acceleration of $9.8\text{m}\cdot\text{s}^{-2}$.
- 1.4 The inertia of an object ...
- A is greater if its mass is smaller.
 - B increases as the applied force on the object increases.
 - C is the resistance to any change in its state of motion.
 - D increases as the frictional force on the object increases.
- 1.5 An astronaut has a weight F_g on Earth. What distance, in terms of the radius of

Box,Gail P. Box,2015-10-14 Our current climate is strongly influenced by atmospheric composition and changes in this composition are leading to climate change Physics of Radiation and Climate takes a look at how the outward flow of longwave or terrestrial radiation is affected by the complexities of the atmosphere s molecular spectroscopy This book examines the planet in

Data Management for Researchers Kristin Briney,2015-09-01 A comprehensive guide to everything scientists need to know about data management this book is essential for researchers who need to learn how to organize document and take care of their own data Researchers in all disciplines are faced with the challenge of managing the growing amounts of digital data that are the foundation of their research Kristin Briney offers practical advice and clearly explains policies and principles in an accessible and in depth text that will allow researchers to understand and achieve the goal of better research data management Data Management for Researchers includes sections on The data problem an introduction to the growing importance and challenges of using digital data in research Covers both the inherent problems with managing digital information as well as how the research landscape is changing to give more value to research datasets and code The data lifecycle a framework for data s place within the research process and how data s role is changing Greater emphasis on data sharing and data reuse will not only change the way we conduct research but also how we manage research data Planning for data management covers the many aspects of data management and how to put them together in a data management plan This section also includes sample data management plans Documenting your data an often overlooked part of the data management process but one that is critical to good management data without documentation are frequently unusable Organizing your data explains how to keep your data in order using organizational systems and file naming conventions This section also covers using a database to organize and analyze content Improving data analysis covers managing information through the analysis process This section starts by comparing the management of raw and analyzed data and then describes ways to make analysis easier such as spreadsheet best practices It also examines practices for research code including version control systems Managing secure and private data many researchers are dealing with data that require extra security This section outlines what data falls into this category and some of the policies that apply before addressing the best practices for keeping data secure Short term storage deals with the practical matters of storage and backup and covers the many options available This section also goes through the best practices to insure that data are not lost Preserving and

archiving your data digital data can have a long life if properly cared for This section covers managing data in the long term including choosing good file formats and media as well as determining who will manage the data after the end of the project Sharing publishing your data addresses how to make data sharing across research groups easier as well as how and why to publicly share data This section covers intellectual property and licenses for datasets before ending with the altmetrics that measure the impact of publicly shared data Reusing data as more data are shared it becomes possible to use outside data in your research This chapter discusses strategies for finding datasets and lays out how to cite data once you have found it This book is designed for active scientific researchers but it is useful for anyone who wants to get more from their data academics educators professionals or anyone who teaches data management sharing and preservation An excellent practical treatise on the art and practice of data management this book is essential to any researcher regardless of subject or discipline Robert Buntrock Chemical Information Bulletin Drones and the Future of Air Warfare Michael P. Kreuzer, 2016-05-26 This book examines the evolution of airpower and specifically the growth and proliferation of Remotely Piloted Aircraft RPAs While most existing literature examines either the law or ethics of RPAs and some newer scholarship looks to the battlefield effectiveness the gains from strikes versus the potential for blowback etc this work investigates it from a broader military perspective It examines the strategy for employment of RPAs across the spectrum of warfare the potential deterrent value of RPAs in some circumstances and the resulting ability of RPAs to fundamentally shift the character of when and how wars are fought The central aim of this book is to evaluate the role of drones in warfare to date and make basic projections on how states will adopt RPAs and UCAVs in the future At the core is the goal of answering a broad underlying research question How will the RPA innovation impact military strategy and international security This book will be of much interest to students of airpower drone warfare military and strategic studies security studies and IR Using Formative Assessment to Enhance Learning, Achievement, and Academic Self-Regulation Heidi L. Andrade, Margaret Heritage, 2017-07-20 There is convincing evidence that carefully applied classroom assessments can promote student learning and academic self regulation These assessments include but are not limited to conversations with students diagnostic test items and co created rubrics used to guide feedback for students themselves and their peers Writing with the practical constraints of teaching in mind Andrade and Heritage present a concise resource to help pre and in service teachers maximize the positive impacts of classroom assessment on teaching Using Formative Assessment to Enhance Learning Achievement and Academic Self Regulation translates work from leading specialists and explains how to use assessment to improve learning by linking learning theory to formative assessment processes Sections on goal setting progress monitoring interpreting feedback and revision of goal setting make this a timely addition to assessment courses Canadian Journal of Physics ,2015 *Women's Under-Representation in the Engineering and Computing Professions: Fresh Perspectives on a Complex Problem* Kathleen Buse, Catherine Hill, Romila Singh, 2018-06-21 Understanding the many complexities that define gender inequality has been

described by researchers as a grand challenge Novel insights innovation a broader community to conduct research and to ascertain effective interventions are essential in the challenge to create organizations that are gender equal As such this Research Topic in Frontiers in Psychology addresses the under representation of women in engineering and computing as a complex but solvable problem This Research Topic seeks to inform the global community about advances in understanding the under representation of women in engineering and computing with a focus on what enables change Further this Topic will promote fresh perspectives innovative methodologies and mixed method approaches important to accelerating the pace of change
