Honour Based Crimes and the Law Mukaddes Gorar, 2021-05-10 Honour based violence and abuse manifests itself in different forms and this book offers a comprehensive understanding of this phenomenon This book argues that the limits of honour crimes must be defined more widely so that they include conducts and behaviours that originate from the patriarchal notion of honour such as honour based oppression and breast ironing The book provides a critical analysis and synthesis of the law in England and Wales and in the international human rights sphere The relevant domestic legislation and cases are examined to reflect on whether adequate protection is provided for the victims and potential victims of honour based violence and abuse Since honour based violence is a violation of human rights the relevant international human rights law is examined to illustrate the perception of such crimes in the international arena The effectiveness of any remedy for victims of honour based violence and abuse depends on its capability to change deep rooted behaviours in communities with honour based patriarchal values This book argues that the law does not provide the effective impact required in part due to patriarchal structures and that more efforts should be dedicated to changes in education It is held that there is a need for an educational programme that is especially designed to tackle violence and promote gender equality The book will be essential reading for academics researchers and policy makers working in the areas of Human Rights Law Criminal Law and Gender Studies

Development in an Era of Capital Control Ciara Hackett, 2017-05-26 Development in an Era of Capital Control investigates Corporate Social Responsibility CSR a 21st century buzz word Centred around the responsibility of business to give back to society this idea is a departure from the traditional view that the responsibility of business is to make a profit Instead it supposes that business society and government can unite to enhance the quality of life in the community in which the business operates This book works from the premise that whereas CSR could assist in developing communities the quality and value of this contribution is constrained by pre existing inequalities in the global system which themselves can be traced to states histories and furthered by globalisation Ciara Hackett shows that while the concept of CSR was designed for an environment where all states are equal this does not ring true in the real world and consequently the potential for CSR to contribute to development is restricted most profoundly in those states that would benefit the most

Policy-Making in the GCC Neil Quilliam, Mark C. Thompson, 2017-09-11 The GCC is a major player in the post 2011 reordering of the Middle East Despite the rise in prominence of individual Gulf states especially Kuwait Qatar Saudi Arabia and the United Arab Emirates and the growth of the GCC as a collective entity surprisingly little attention has been paid to the actual mechanics of policy making in the region This book analyses the vital role that institutions are coming to play in shaping policy in the Gulf Arab states The research coincides with two key developments that have given institutions new importance in the policy process the emergence of a new generation of leaders in the Gulf and the era of low oil prices Both developments along with dramatic demographic change have compelled state and citizens to re evaluate the nature of the social contract that binds them together Contributors assess the changing relationship between state and citizen and evaluate the role that formal and informal institutions play in mediating such change and informing policy The book shows how academic social and economic institutions are responding to the increasingly complex process of decision making where citizens demand better services and further empowerment and states are obliged to seek wider counsel although wanting to retain ultimate authority With contributions from both academics and practitioners this book will be highly relevant for researchers and policymakers alike

North Korean Military Proliferation in the Middle East and Africa Bruce E. Bechtol Jr., 2018-09-07 North Korea has posed a threat to stability in Northeast Asia for decades Since Kim Jong un assumed power this threat has both increased and broadened Since 2011 the small isolated nation has detonated nuclear weapons multiple times tested a wide variety of ballistic missiles expanded naval and ground systems that threaten South Korea and routinely employs hostile rhetoric Another threat it poses has been less recognized North Korea presents a potentially greater risk to American interests by exporting its weapons systems to other volatile regions worldwide In North Korean Military Proliferation in the Middle East and Africa Bruce E Bechtol Jr analyzes

relevant North Korean military capabilities what arms the nation provides and to whom how it skirts its sanctions and how North Korea's activities can best be contained He traces illicit networks that lead to state and nonstate actors in the Middle East including Syria Iran Hezbollah and Hamas and throughout Africa including at least a dozen nations The potential proliferation of nuclear and chemical weapons technology and the vehicles that carry it including ballistic missiles and artillery represent a broader threat than the leadership in Pyongyang Including training and infrastructure support North Korea's profits may range into the billions of dollars all concealed in illicit networks and front companies so complex that the nation struggles to track and control them Bechtol not only presents an accurate picture of the current North Korean threat he also outlines methodologies that Washington and the international community must embrace in order to contain it
