Meningsskabelse Organisering Og Ledelse:

Meningsskabelse, organisering og ledelse Sverri Hammer, James Høpner, 2014 *Meningsskabelse, organisering og ledelse* Sverri Hammer, James Høpner, 2014 **How to Lead Academic Departments Successfully** Adam Lindgreen, Alan Irwin, Flemming Poulfelt, 2025-10-07 It is an old cliché that leading and managing academics is like herding cats. This timely second edition challenges this myth and presents a way to deal with the many challenges of academic leadership from managing departments, research groups and teams to managing tensions between research and teaching. The book is a practical and stimulating guide to different pathways to successful academic leadership both in personal and organizational terms. Processual Perspectives on the Co-Production Turn in Public Sector Organizations Thomassen, Anja Overgaard, Jensen, Julie Borup, 2020-12-11 Existing research understands co-production as leading to shifts in roles of the public sector institutions and their staffs. The shift is seen in the way that a discursive use of the term service provision with embedded logics encompassing fiscal accountability, performance measurement, efficiency and process regulation has changed towards discourses that embrace collaboration between the public sector front staff and the citizens with the aim of developing legitimate and effective welfare services that are co-produced by means of active participation and distributed decision making. However, this change requires new approaches to the way in which the implementation of new practices and tools is executed in practice as studied and researched and how the new practices and tools are understood and evaluated in organizations. *Processual Perspectives on the Co-Production Turn in Public Sector Organizations* is an essential reference book that examines, unfolds and develops approaches to co-production and implementation as dynamic, processual, collaborative sensemaking and as requiring and resulting in capacity building and learning. Moreover, the book examines new approaches to engage citizens and public sector actors in collaborative and co-productive processes, especially with concern for new goals pertaining to sustainability, social equity, democratic legitimacy etc. Covering topics that include knowledge management and collective leadership, the book presents perspectives on capacity building, learning, change and evaluation in organizations and current research in different areas of the public sector. It is intended for public sector administrators and managers investigating the relevancy, approaches and methods in co-production. Furthermore, it targets civil actors and welfare service users, leaders and managers of public organizations, researchers, academicians and students in programs that include social welfare development, public administration, political science and organizational development. **Protreptik som behandlingsform og ledelsesdisciplin** Ousia Publications, 2023-07-13 Antologien indeholder en lang række velfunderede erfaringer og erkendelser omkring protreptikkens funktion og ydeevne indenfor behandlingsenheder og botilbud i psykiatri såvel som i privat regi med eksempler på konkrete metoder til at gøre viden og erfaringer fra ni forskellige bidragsydere fordelt under to temaer: Protreptik i ledelsen af organisationer og Protreptik som behandling.
