demonstrates how mediatization or the adoption of the semantics and the contexts of mass media has changed the way American theatre is produced performed and perceived Early chapters use works like Robert Wilson's 3D digital opera *Monsters of Grace* and Thecla Schophorst's digitally animated *Bodyscapes* to demonstrate the shifting nature of live performance Critical analysis of the interaction between the live performer and digital technology demonstrates that the use of media technology has challenged and changed traditional notions of dramatic performance Subsequent discussion sustains the argument that theatre has reconfigured itself to access the economic and cultural power of the media Final chapters consider the extent to which mediatization undermines theatrical authorship and creativity      **Icons of the American**
