Layard The Depression Report:

CBT: The Cognitive Behavioural Tsunami Farhad Dalal, 2018-09-25 Is CBT all it claims to be The Cognitive Behavioural Tsunami Managerialism Politics and the Corruptions of Science provides a powerful critique of CBT's understanding of human suffering as well as the apparent scientific basis underlying it The book argues that CBT psychology has fetishized measurement to such a degree that it has come to believe that only the countable counts It suggests that the so called science of CBT is not just bad science but corrupt science The rise of CBT has been fostered by neoliberalism and the phenomenon of New Public Management The book not only critiques the science psychology and philosophy of CBT but also challenges the managerialist mentality and its hyper rational understanding of efficiency both of which are commonplace in organizational life today The book suggests that these are perverse forms of thought which have been institutionalised by NICE and IAPT and used by them to generate narratives of CBT's prowess It claims that CBT is an exercise in symptom reduction which vastly exaggerates the degree to which symptoms are reduced the durability of the improvement as well as the numbers of people it helps Arguing that CBT is neither the cure nor the scientific treatment it claims to be the book also serves as a broader cultural critique of the times we live in a critique which draws on philosophy and politics on economics and psychology on sociology and history and ultimately on the idea of science itself It will be of immense interest to psychotherapists policymakers and those concerned about the excesses of managerialism

Psychoanalytic Insights into Fundamentalism and Conviction Lesley Murdin, 2020-06-01 Psychoanalytic Insights into Fundamentalism and Conviction

The Certainty Principle examines the role of and need for certainty in mental life addressing questions raised by fundamentalism and extremism and exploring its relation to human nature Murdin proposes a new synthesis in which certainty itself can be a cause of suffering and part of a defensive manoeuvre and considers how the need for certainty can be managed in a positive way rather than creating fear and extreme emotional responses Illustrated throughout with examples from psychotherapy practice literature and international politics this book considers how the quest for certainty dominates much of human thinking Murdin examines personal relationships including politics and religion where assumptions are taken for granted but function to hide fears and doubts and argues that fundamentalist elements can generate harm in anyone but can be mitigated with understanding and work in therapy Psychoanalytic Insights into Fundamentalism and Conviction helps to identify the underlying convictions that are causing mental harm It is essential reading for psychotherapists psychoanalysts and counsellors in practice and in training and will be of interest to readers interested in fundamentalist states of mind

Mental Health Nursing Steven Prymachuk, 2011-03-28 This book introduces students to the core skills and essential knowledge needed to deliver high quality mental health care

Learning and Unlearning through the Clinical Encounter Francesca Hume, Helen Barker, 2025-05-13 This book examines the learning process involved in becoming a psychoanalytic practitioner and presents training experiences at the Tavistock and Portman

NHS Foundation Trust through the lens of both teachers and trainees The book describes the relevant history at the Tavistock and how psychoanalytic knowledge is acquired through a process of learning from experience and the fostering of a culture of enquiry The contributors also present their interpretations of what is meant by analytic learning and how this is acquired for a psychoanalytic attitude to become possible The book includes a mix of chapters by more experienced clinicians setting out what can be useful in training balanced by other chapters from more recent trainees who reflect on their development and experience of that training Other important sections focus on the experience and importance of supervision and on how to respond to clinical challenges in training and practice specifically public sector based trainings With rich clinical vignettes and personal reflections on training experiences this book is key reading for all psychoanalysts and psychotherapists involved or interested in training
