 Antilles are an almost homogeneous insular region situated at the core of the Caribbean identified as a remarkably rich
 biodiversity hotspot of the western Atlantic Featuring a total of more than one thousand crustacean species Les Crustac s d
 capodes des Petites Antilles presents for the first time the documented inventory of the shrimps lobsters hermit crabs and
 crabs of the region This French language inventory is based on a literature search of roughly six hundred scientific
 contributions published over more than two centuries and integrates American French Dutch and Venezuelan research
 efforts Also included are some unpublished data from recent expeditions to the French islands of Saint Martin Guadeloupe
 and Martinique Readers will find an up to date list of the species that both complies with the latest taxonomic revisions and
 supplies the source of each record An analysis of the list provides a sampling history of the islands the result of the inventory
 presented by families islands and archipelagos documentation of the major ecological habitats a zoogeographic appraisal
 distinguishing marine and freshwater fauna and the prospects for new discoveries of undescribed species This work
 illustrates many species in color with photographs taken in the laboratory and in the field
