

A woman with long red hair, wearing a black and white striped dress, stands at a modern office workstation. She is using a computer with two monitors. The workstation is on a white desk, and there are other desks and computers visible in the background. A man in a blue shirt is partially visible on the right side of the frame. The floor is made of light-colored wood. A yellow vertical bar is on the left side of the image.

*L'intervention en ergonomie* Marie St-Vincent, Nicole Vézina, Marie Bellemare, Denys Denis, Élise Ledoux, Daniel Imbeau, 2011-07-08T00:00:00-04:00 L'ouvrage présente une vision moderne de l'intervention ergonomique. Il propose d'abord un modèle de la personne en activité de même qu'un modèle de l'intervention et explique d'une manière claire les grands concepts sous-jacents à l'intervention ergonomique. L'ouvrage décrit par la suite les grandes étapes relatives à l'analyse de la demande au suivi des transformations. Il inclut une réflexion sur la pratique et propose aux lecteurs des outils concrets. L'intervention en ergonomie est le reflet de la pratique des chercheurs et praticiens qu'ils soient et de l'expérience de près de 30 ans de recherche action dont l'essor a été grandement favorisé par le soutien de l'Institut de recherche Robert Sauvé en santé et en sécurité du travail (IRSST). S'inspirant du discours de praticiens, le livre est d'abord destiné aux enseignants et aux étudiants en ergonomie pour accompagner leur formation. L'intervention ergonomique est également d'intérêt pour tous les ergonomes novices ou chevronnés de même que pour les divers praticiens impliqués en santé et en sécurité du travail. Sa lecture sera également utile à tous ceux qui veulent mieux comprendre ce qu'est une intervention en ergonomie qu'il s'agisse des acteurs du milieu de travail ou des professionnels des disciplines connexes qui ont interagi avec les ergonomes.

Constructive Ergonomics Pierre Falzon, 2014-09-26 The goal for ergonomics has always been to adapt work environments and machines to humans But is this goal still sufficient Does it satisfy the needs of the individual or of societies and organizations as they operate now Constructive Ergonomics provides an answer to these questions Rooted both in the academic world and in the world of practice **L'évaluation de l'intervention ergonomique** Aurélie Landry, 2008 Ce travail de recherche a pour objectif de proposer des recommandations pour la mise en place d'évaluations d'interventions en ergonomie Pour instruire cette question de recherche nous avons décidé d'explorer comment les ergonomes utilisent l'évaluation pour proposer des repères pour la conception pour suivre l'évolution des projets avec des indicateurs de gestion ou pour argumenter les connaissances sur l'intervention qui s'est déroulée Nous avons également exploré les modèles d'évaluation proposés par la littérature et détaillé particulièrement les démarches et buts visés par l'évaluation normative la recherche évaluative l'évaluation sommative et l'évaluation formative en générale et dans le cadre particulier des actions en santé et sécurité au travail

Enfin nous avons caractérisé l'objet de l'évaluation l'intervention en ergonomie afin de mettre en évidence des dimensions d'évaluation L'analyse de 3 cas d'intervention a permis de montrer l'importance de la prise en compte d'un système contexte opportunités arbitrages décisions pour appuyer les démarches d'évaluation sur la mise en évidence d'alternatives d'intervention prévues et interventions réellement mise en œuvre Cette approche permettant d'atteindre les quatre buts fondamentaux de toute démarche d'évaluation stratégiques formative sommative et fondamentale *Le Travail humain*, 2007
