Listening lesson plan

Aim: The study of a second language has become something fundamental. The purpose of English teaching is to make students recognize in all skills the language and they have autonomy to put into practice their learning. Regarding this matter, we have developed an activity of Listening with a focus on the language in everyday use.

STAGE	PROCEDURE	RATIONALE	TIME
PRE-LISTENING ACTIVITY	The teacher will ask the students about sports they like, know or practice, including the gym, something common for people today.	By doing this the students will be familiarized with the theme of the class, the expressions used in English language, and they will have condition to expose their opinions.	3'
LISTENING ACTIVITY	After the discussion of physical activity and sports, the teacher should show to the students the video of the <i>Friends</i> series, that addresses this context. The video can be passed more than once for the assimilation of students. Video found in: https://www.youtube.com/watch?v=244phGCoFn4	The video will cause students to inspire themselves in the context of class, and make them observe the importance of language study and its daily uses	5'
POST-LISTENING ACTIVITY	The teacher will ask to students some questions about their comprehension of the <i>Friends</i> video.	It is important to notice the informations were passed by the video, if they could understand the context, the expressions and main situation lived by the actors: "to quit the gym". Other things can be notice like humor, daily situations etc.	5'
ELICIDATION	The teacher will explain the aim of the video, the expressions were used, and the content about "to quit something" that was presented in it.	The students will learn the words, expressions and how they can use the new verb learned by them in English situations.	3'
