1962 through the 1968 unit construction models The 99 0883 manual was subsequently updated by the publication of part number 99 0889 which was unique to the 1969 and 1970 models Ultimately both of these manuals were merged under part number 99 0883 0889 ISBN 9781588502667 as a single manual covering the 1963 through 1970 models Unfortunately owners of pre 1970 Triumph motorcycles are subjected to considerable confusion surrounding the appropriate selection from the multitude of originals and reprints of the various manuals that have recently flooded the online marketplace We encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years

0948 manual was published in August 1971 but coverage was retroactive to 1963 it is obvious that Triumph had compiled the data from the earlier manuals and merged them into a single 1963 to 1971 publication 1963 1974 MODELS The final version of this manual included a supplement 99 0950 that extended coverage through the 1974 model year This supplement was merged with the previous 1971 publication and issued under part number 99 0843 0948 0950 The supplement was appended such that Section A is followed by a Section AA supplement Section B by a Section BB supplement etc etc This manual both backdates and extends coverage and is the most comprehensive manual for the 1963 to 1974 series of 350cc and 500cc unit construction twins It is available under ISBN 9781588502674     Triumph Workshop Manual for Unit Construction 650 Cc Twins, Etc.
