**World Art Studies** Kitty Zijlmans, Wilfried Van Damme, 2008. This timely volume challenges the narrow Western centrism of most art historical models. Archeologists have found that for tens of thousands of years all human cultures have shared a desire for visual representation or expression. Yet the study of art history has traditionally focused on Western artworks of the past few centuries. World Art Studies examines the phenomenon of art through a broader cultural global and temporal perspective bringing together a uniquely exhaustive range of perspectives on art and borrowing approaches from the study of neuroscience evolutionary biology anthropology and geography as models alongside more conventional art historical perspectives. In musicology or linguistics using such diverse viewpoints for reflection and research is considered part of the normal process. In that spirit this volume goes beyond abstract models using case studies to demonstrate and examine specific methods of investigation.

**BOOK JACKET** Texte et image dans les mondes hispaniques et hispano-américains Jean-Pierre Castellani, Mónica Zapata, 2007. L'image présente de façon autonome ou associée d'autres éléments constitue un vecteur de plus en plus pratiqué et privilégié dans la transmission des savoirs des connaissances et des informations. S'il est presque impensable de concevoir une image seule le texte qui l'accompagne lui donnant son sens ou du moins un sens par la légende ou le commentaire il est de plus en plus difficile d'offrir un texte sans image du moins dans le champ de la communication. Pour couvrir ce champ nouveau.
