Educación literaria Mapi Ballesteros Panizo,2025-04-01 Nos encontramos en una situación de emergencia educativa y en una crisis de sentido generalizada que ha hecho saltar todas las alarmas y no solo en el ámbito de la educación sino también en el de la salud mental Este libro sostiene que parte de la solución a estos problemas sociales reside en la literatura y en su adecuada transmisión desde la infancia Para la autora la literatura es la actividad formativa y educativa más completa que puede recibir el ser humano porque es junto a la ciencia una forma de conocimiento genuina En efecto la literatura enfrenta al lector con el motivo y el objetivo de su existencia y lo hace a través de imágenes simbólicas que le permiten apropiarse de la realidad por la vivencia subjetiva Por eso la formación literaria es una verdadera educación para el uso con sentido de la libertad gracias a los hábitos que fomenta las imágenes que cada obra genera y a la actividad cognitiva y emocional que requiere una interpretación compleja Aquí se presenta un método hermenéutico tanto cognitivo como estético y simbólico que supera los posicionamientos críticos de moda y permite recibir la tradición con apertura para dejar que resuene en el interior de cada lector Esa lectura literaria permite así comprender el presente y proyectar el futuro La piedra que desecharon los arquitectos es ahora la piedra angular **The Lord of the Rings and the Western Narrative Tradition** Martin Simonson,2008 When The Lord of the Rings was published in the 1950 s it did not sit comfortably among any preconceived notions of literary genre The critical responses reflected the confusion for some it was an unwelcome reappearance of

narrative standards that modernism was supposed to have done away with or just a bad novel Others considered it a refreshing work in the epic and romance traditions Ironically much of the critical prejudice regarding the question of genre in The Lord of the Rings has been motivated by the same kind of blindness that Tolkien denounced in his famous 1936 lecture Beowulf the monsters and the critics Like Beowulf Tolkien s work has also failed to be properly appreciated and assessed due to a general refusal to accept the centrality of monsters because despite its monstrous originality and fantastic setting it is very clearly and not only chronologically at the centre of twentieth century literature The Lord of the Rings and the Western Narrative Tradition is an attempt to account for the particular genre interaction that governs Tolkien s tale and put it in a meaningful relationship with the contemporary literary context At the same time it is a quest to track down one of the most famous and elusive literary monsters of the past century by filling out a long neglected white space on the map of comparative literature and genre criticism
