these surveys and of the people whose land was affected by them These chapters were written to be used as an aid in training cadastral surveyors in the application of surveying principles The learner is expected to gain from the factual material on survey laws and their formation as well as from a study of the people who performed the surveys Many of the men who had an important role in the history of cadastral surveying are still living but only those who have retired are included in the present document Foreword Dr. Dobb's Journal of Software Tools for the Professional Programmer ,1990
