Schultz, Sheila L. Videbeck, 2009 Accompanying CD ROM has nursing care plans a customizable psychosocial assessment tool and monographs about psychotropic drugs **Manual of Psychiatric Nursing Care Plans** Judith M. Schultz, Sheila L. Videbeck, 1994 This supplemental text of 54 updated nursing care plans addresses the most commonly encountered behaviors and behavior complexes in psychiatric and mental health nursing The thoroughly updated Sixth Edition responds to current community based care settings across the lifespan care cultural considerations and violence in the community Also this edition presents a stronger focus on interdisciplinary care community resources available to clients and their family support groups Web based resources communication content and a sample assessment tool DSM IV TR terminology organization and NANDA diagnoses are used and it includes a free disk with printable nursing care plans that students can customize Psychiatric Nursing Care Plans - E-Book Katherine M. Fortinash, Patricia A. Holoday Worret, 2006-05-16 New care plans many that focus on the family join completely updated and revised care plans to make this text the most comprehensive psychiatric nursing care planning text available Dynamic internal design emphasizes the care plans as the focus of the text tabbed pages noting the relevant disorder and a complete list of care plans with page number references make finding a specific care plan easier than ever before Appropriate Nursing Interventions Classification NIC and Nursing Outcomes Classification NOC labels are presented with each care plan in order that students become familiar with these emerging classifications and practicing nurses can easily identify them for use in their care setting if applicable A comprehensive pharmacotherapy appendix includes the most recent psychotropic drug information and appropriate related client care Online Resources for the nurse client and family conclude each chapter *Manual of Psychiatric Nursing Care Plans* Elizabeth M. Varcarolis, 2004 This handy pocket guide is designed to assist in the assessment of psychiatric nursing clients the formulation of nursing diagnoses and the design of psychiatric nursing care plans The book contains practical clinically oriented information students can carry with them as they visit the inpatient unit community mental health setting or home care setting It is also an excellent resource for the new graduate and or practicing nurse Effectively covers all major disorders commonly encountered in the clinical setting Includes assessment guidelines with signs and symptoms assessment tools and questions nurses should ask clients for each disorder

Each care plan begins with a nursing diagnosis and includes Related To Etiology As Evidenced By Assessment Findings Diagnostic Cues Outcome Criteria Long Term Goals Short Term Goals and Interventions and Rationales Integrates psychopharmacology information for each disorder Features Client and Family Teaching boxes for easy reference and to ensure clear communication of the required care regiment Nurse Client and Family Resources include website addresses association information and additional resources for client teaching material medication information and support groups The new two color design improves readability and overall design Revised chapter design presents sections consistently and makes essential information easier to identify Includes the most recent information in the field including the DSM IV TR taxonomy and 2003 2004 NANDA nursing diagnoses A new chapter Major Psychotropic Interventions and Client Family Teaching provides coverage of psychopharmacology in addition to the content found in each disorder chapter Drug tables in select chapters provide rapid access to psychotropic drug information DSM IV TR headings highlight medical diagnosis Revised and expanded client outcome sections include additional outcome criteria long term goals and short term goals for each diagnosis Additional content on forensic issues in psychiatric nursing is integrated throughout where appropriate Assessment tools are now grouped in Appendix D for easier reference Assessment tools are referred to in the text where appropriate A helpful appendix of drug monographs features the most commonly prescribed psychiatric medications Focuses on practical clinical information for providing client care in the inpatient unit community mental health setting or home care setting User friendly format allows for quick and easy access to information

**Manual of Psychiatric Nursing Care Plans** Elizabeth M. Varcarolis, 2005-12-01 This pocket sized clinical companion is designed to assist in the assessment of psychiatric nursing clients formulation of nursing diagnoses and design of psychiatric nursing care plans It provides quick and easy access to the detailed and concrete information students need to know as they visit the inpatient unit community mental health setting or home care setting The content is clinically based rather than theory based This avoids repetition of material that students already have in their mental health nursing textbooks and makes it a perfect reference for clinical use

*Psychiatric Nursing Care Plans* Katherine M. Fortinash, Patricia A. Holoday-Worret, 2007 The most comprehensive psychiatric nursing care planning text available assists students and practitioners in providing effective care in a variety of settings Clear presentation of information consistent use of the nursing process correlation of nursing and medical diagnoses and prioritization of interventions make this text an invaluable resource Grounded in the latest classification of the Diagnostic and Statistical Manual of Mental Disorders DSM IV TR and the most current list of NANDA approved nursing diagnoses this text covers a wide range of disorders their psychopathology and appropriate nursing interventions with rationales Care plans use real clinical situations and include therapeutic and nontherapeutic dialogue examples to familiarize nurses with likely scenarios and equip them with the tools they need to feel confident in any clinical setting The first chapter The Nursing Process effectively describes the central principles of psychiatric nursing practice in detailing the ANA s six step

nursing process along with additional information on therapeutic nurse client communication skills client history and assessment tools NIC and NOC and more The six step nursing process format is maintained throughout to emphasize a practice oriented problem solving approach to psychiatric care Major psychiatric disorders are reviewed consistently and completely with sections including Etiology Epidemiology Assessment and Diagnostic Criteria Interventions and Prognosis and Discharge Criteria With this basis of knowledge relevant care plans are offered in the second section of each chapter Care plans based on DSM IV TR medical and NANDA nursing diagnoses are logically and consistently organized with Assessment Data Outcome Criteria Planning and Implementation and Evaluation sections Assessment Data sections include detailed related factors etiology and defining characteristics or risk factors as appropriate for the specific diagnosis Outcome Criteria sections give the reader clear indications of the desired end state Planning and Implementation sections list specific relevant and practical nursing interventions with rationales in a clear comprehensible two column format UNIQUE Therapeutic and non therapeutic dialogue examples are presented throughout to promote more effective client communication Evaluation sections state the role of outcome evaluation as a critical and ongoing step in the nursing process Client and Family Teaching boxes include Nurse Needs to Know and Teach Client and Family sections covering all aspects of post treatment instructions for clients and caregivers DSM IV TR boxes list all related DSM IV TR diagnoses for quick reference Helpful appendices contain information and strategies that are timely and useful in the care of clients with mental and emotional disorders including such topics as psychiatric and psychosocial therapies grief and loss spirituality and many more New care plans many that focus on the family join completely updated and revised care plans to make this text the most comprehensive psychiatric nursing care planning text available Dynamic internal design emphasizes the care plans as the focus of the text tabbed pages noting the relevant disorder and a complete list of care plans with page number references make finding a specific care plan easier than ever before Appropriate Nursing Interventions Classification NIC and Nursing Outcomes Classification NOC labels are presented with each care plan in order that students become familiar with these emerging classifications and practicing nurses can easily identify them for use in their care setting if applicable A comprehensive pharmacotherapy appendix includes the most recent psychotropic drug information and appropriate related client care Online Resources for the nurse client and family conclude each chapter
