learned with Let's Go and ensures that they are practicing their skills at the correct level. Listening Practice CD Research¹ suggests that listening is the most commonly used skill but is often the most difficult one for students to master.² The Listening Practice CD that accompanies each Skills Book maximizes your opportunities to develop students' listening skills. Every lesson includes an audio-based listening comprehension exercise. Students can only complete each exercise when they understand the audio so you can be confident that they are making good progress as they work through the book. The activities reinforce the speech delivery patterns that students have heard through the Student Book Audio CD, consolidating what students have already learned. The familiar structures allow them to really focus on understanding and building their listening skills.
